

2012-13 Progress Targets Action Plan

Southern Regional Middle School

Curriculum alignment discussions with New Common Core

Modify curriculum to address New Common Core Standards

Articulation with special education/math teachers to address New Common Core Standards

Articulation with sending districts to address New Common Core Standards

Promote the use of interactive whiteboards in all math classrooms; professional development on best classroom practices for use of whiteboards

Math Workshop- half year program which focuses on emerging skill development in each of 4 clusters

Planning among core math and math workshop teachers to transition workshop to lab aligned with regular core class. In 2013, the students will meet in the lab setting bi-weekly in addition to the regular core math class

Math "Take Homes"- weekly multi-step open-ended problems which are focused on concepts from the four clusters and emphasize Common Core skills
