

## Opening Your Hall Locker

**\*\*Purchasing in advance the pad lock needed for gym provides a great opportunity to practice the R-L-R pattern for opening the hall locker.**

1. Clear lock – turn R twice past zero.
2. Turn R and stop at first # of combination.
3. Turn L, pass the second # of combination once, then stop at the second # of the combination.
4. Turn R and go directly to the last # of the combination.
5. Open locker by lifting the black latch above the dial.
