

SOUTHERN REGIONAL MIDDLE SCHOOL

TECHNOLOGY CLUB

The Technology club is a hands-on activity and project-based club. Students will build projects, and in most cases, compete with the finished project for points. At the end of the year, points are tallied up and awards are handed out to the top scores. Past projects include: model rockets, CO₂ cars, mouse trap cars, gliders, walking toys and mechanical hands. Club is open to all students, but consistent attendance is necessary

Joel Brower jbrower@srsd.net

MS Room: C-14

Full Year, Thursdays, 2:15 – 2:55

See SRMS Student Bulletin for meeting dates
