

SOUTHERN REGIONAL MIDDLE SCHOOL

NATIONAL JUNIOR HONOR SOCIETY

National Junior Honor Society membership is based on the five club pillars: scholarship, service, citizenship, leadership, and character. This is a nationally recognized society. To be eligible, students must have earned a 94% average in 7th grade. To be accepted, students must complete the application process, providing proof of involvement in school and outside activities. Leadership and community service are very important. This application is reviewed and approved by staff. Students whose applications are accepted will be inducted into the National Junior Honor Society in October. Members are required to uphold high academic standards, as well as provide service to their school and local community. Each member who completes a total of 15 community service hours during their 8th grade school year will be recognized in May at Academic Awards Night. Service hours can be completed independently; however, service opportunities are also provided by the advisors throughout the school year.
