***Hello and welcome back to a new school year full of exciting activity,
stability and normalcy!
Sorry, just trying to start off on a positive note...***

We know as well as you all do that this year will be anything but ordinary, and along with you we continue our support of the Southern Regional Students and Faculty in the best ways that we can.

We usually spend the first few months of the school year discussing, planning and hosting our holiday happenings such as the Craft & Vendor Fair and the school-wide Door Decorating Contest. We also have our fun 50/50 raffles and "lottery scratch-off trees" chances to win at the MS and HS back to school nights. Coming to January we begin focusing on spring and summer fundraising ideas and then onto the grand finale of Project Graduation.

However, with the constant changing of rulings associated with Covid-19 directed by the state, we will be at a "to be determined" stage at this point. As of now, we will be following the direction of the Southern Regional School District's re-opening guidelines. This means we will have to put our monthly meetings on hold, as well as any large participation events 😞

Nevertheless, we are still open for membership all year long! Just download, print and send in your SRHSA Membership application for \$5 per family (for middle & high school students) so we can add you on the email roster to receive all information and updates regarding the Southern Regional Home and School Association. We encourage you to visit and contribute to the discussion on our Facebook Group – Southern Regional Home & School (we're up to 1,300 members now!) We also have a quick link on the school website at: www.srsd.net/SRHSA. We always welcome our members' input of fundraising ideas, as well as the great exchange of thoughts among the parents and guardians of our Southern students.

We seem to be entering into a new world of changes that we optimistically expect may turn onto a road with new ways of doing things. We're planning on taking this time that has been given to us to assess and re-evaluate which direction is best for the SRHSA to take. We are sincerely hoping there is still a place for the Home and School Association as well as other parent-teacher organizations in this new landscape.

But for now, thank you to all of our supporters and we look forward to seeing everyone soon!
