SOUTHERN REGIONAL SCHOOL DISTRICT OF OCEAN COUNTY

Dear Student,

The Program of Studies is a valuable resource for you. It contains information on graduation requirements, post-secondary planning, and course descriptions for each course offered at Southern Regional High School. The graduation requirements as issued by the New Jersey State Department of Education are listed on page 1. All State mandated requirements must be met in order to be eligible to graduate from Southern Regional High School.

The decisions you and your parents make regarding course selections are important. Southern Regional provides a diverse academic program, so we encourage you to carefully review the courses available and be thoughtful about each course selection. Your guidance counselor is available to assist you with academic planning. If you have questions about prospective courses, please reach out to your teachers, counselor, and/or administrators. We all want to be part of the process of planning the best course schedule for your upcoming academic year.

Sincerely,

Joseph Medica, Principal

Mission Statement

The Southern Regional experience, a community partnership, will assure our students challenging learning opportunities that are shaped by the New Jersey Student Learning Standards in order to become contributing members of society.

Belief Statements

We believe that:

- All students possess unique talents and will be challenged and successful.
- All students will feel comfortable in a safe, nurturing environment that is established through mutual respect, acceptance, and a sense that everything is valued by all involved.
- Every student should have physical and emotional security in an environment that stimulates learning and recognizes each individual's self-worth.
- Motivation is an essential element of learning.
- Everyone wants to be, and can be, productive.
- A good education provides a foundation for a productive, well-rounded contributing member of our community and is the shared responsibility of parents, school, and the community.
- The role of the community is to be informed and to provide facilities, materials, and personnel in a spirit of cooperation.
- The school should provide comprehensive curricula, which offer students diversity of choice in an environment that stimulates learning and growth.
- The district has the responsibility to be a good steward of the financial resources provided by the community.

COURSE REQUIREMENTS FOR GRADUATION

	Graduation Requirements	Notes
English	4 years (20 credits)	
Mathematics	3 years (15 credits including Algebra, Geometry and a third year of math that builds on the concepts and skills of Algebra and Geometry)	4 years of mathematics is preferred for many colleges and may be required
Science	3 years (15 credits) of lab science including Biology and Chemistry, Environmental Science or Physics	4 years of science is preferred for many colleges (Physics may be required for some college programs)
Social Studies	3 years (15 credits) including World History, US History I and US History II	
World Language	1 year (5 credits) in world languages	Most colleges require a minimum of 2 years of a single world language (3 or more years of study is recommended for admission to competitive colleges)
Physical Education & Health	4 years (20 credits)	
Practical Arts	1 year (5 credits) in 21 st century life & careers, or career & technical education	See page 6 for a list of courses that meet this requirement
Visual & Performing Arts	1 year (5 credits) in visual and performing arts	See page 6 for a list of courses that meet this requirement
Financial Literacy	1/2 year (2.5 credits) in financial, economic, business, and entrepreneurial literacy	Students may complete the online Money Skills course OR they may complete one of the following courses: <ul style="list-style-type: none"> • Small Business Management • Topics in Business • Life 101 • Practical Math & Personal Finance • Economics • AP Microeconomics

STANDARDIZED ASSESSMENT REQUIREMENTS

Students in 9th grade will be required to take the New Jersey Student Learning Assessment (NJSLA) English Language Arts (ELA) 9 assessment and the NJSLA Mathematics assessment corresponding to their current mathematics course. Students in grades 10-12 who are enrolled in Algebra I for the first time must take the NJSLA Algebra I assessment.

All students will take the NJSLA Science assessment in the spring of their junior year.

GRADUATION REQUIREMENTS FOR THE CLASS OF 2025

First Pathway

Students must take and demonstrate proficiency in grade 11 on the New Jersey Graduation Proficiency Assessment (NJGPA), which includes content aligned to the grade 10 New Jersey Student Learning Standards (NJSLS) in ELA, and the NJSLS in Algebra I and Geometry. If after completing the New Jersey Graduation Proficiency Assessment a student does not demonstrate proficiency on the ELA or mathematics section, the student may retake the New Jersey Graduation Proficiency Assessment the following summer or fall.

Second Pathway

Students who completed the New Jersey Graduation Proficiency Assessment in grade 11 and did not demonstrate proficiency are able to demonstrate proficiency in ELA and/or mathematics by meeting the designated cut score on one of the assessments on the following competency tests.

English Language Arts (ELA)	Mathematics
One of the following: <ul style="list-style-type: none">SAT Evidence-Based Reading and WritingSAT Reading TestACT ReadingACCUPLACER WritePlacerACCUPLACER WritePlacer ESLPSAT10 Reading or PSAT/NMSQT ReadingPSAT10 Evidence-Based Reading and Writing or PSAT/NMSQT EBRW	One of the following: <ul style="list-style-type: none">SAT Math TestSAT Math SectionACT MathNext-Generation ACCUPLACER QASAccuplacer Elementary AlgebraPSAT 10 Math or PSAT/NMSQT MathPSAT 10 Math Section or PSAT/NMSQT Math Section

Third Pathway

Students who completed the New Jersey Graduation Proficiency Assessment in grade 11 and did not demonstrate proficiency are able to demonstrate proficiency in ELA and/or mathematics through a portfolio appeal in grade 12.

COURSE PLANNING WORKSHEET

Use the following chart to plan your academic program for 4 years. Students must schedule a minimum of 35 credits per year.

Graduation Requirements	9th grade	10th grade	11th grade	12th grade
English (20 credits)	_____ (Required)	_____ (Required)	_____ (Required)	_____ (Required)
Mathematics (15 credits)	_____ (Required)	_____ (Required)	_____ (Required)

Cumulative Credits (120 credits)	____ credits	____ credits	____ credits	____ credits

CURRICULUM PATTERN GUIDELINES

Southern Regional High School offers a curriculum that allows students to tailor their program to their specific needs and future goals. The following patterns serve as **suggested** guidelines for course selection. Final decisions rest with students and parents. We recommend that students take as rigorous an academic program as they can handle which includes those courses that will prepare them for post-secondary plans.

Honors			
Freshman	Sophomore	Junior	Senior
Honors English I	Honors English II	Honors Eng III/AP Lang	AP English IV Lit
Honors Geometry	Honors Algebra II	Honors Trig & Pre-Calc	AP Calculus
Honors Biology	Honors Chemistry	AP Science	AP Science
Honors/AP World History	Honors US History	AP US History II	AP Social Studies
World Language	World Language	World Language	Honors/AP World Language
PE/Health 9	PE/Health 10	PE/Health 11	PE/Health 12
Elective/Financial Lit	Elective	Elective	Elective
Advanced			
Freshman	Sophomore	Junior	Senior
Advanced English I	Advanced English II	Advanced English III	Advanced English IV

World History	US History I	US History II	Elective
World Language	World Language	World Language	Elective
PE/Health 9	PE/Health 10	PE/Health 11	PE/Health 12
Elective/Financial Lit	Elective	Elective	Elective

COURSE SELECTION PROCEDURES

1. Review the graduation requirements (page 1) and the curriculum pattern guidelines (page 4) to complete the course planning worksheet (page 3).
2. Discuss your course selections with your parents/guardians and teachers. Check the **prerequisites** for each course you have selected.
3. Be certain that your course credits total at least 35. Seniors participating in Early College at Ocean County College may schedule 30 credits.
4. If you have failed a course(s) required for graduation in a previous year and have not yet repeated the course(s), you need to either attend summer school and/or schedule the course(s) for the upcoming school year.
5. **Please select alternate courses for each elective to avoid scheduling conflicts.** If you do not select alternates, you will be placed in an elective that fits your schedule.
6. Complete your course selections in Genesis by the due date. Your course selections will be discussed during a conference with your guidance counselor. Adjustments can be made at that time.
7. Parents and students are encouraged to contact teachers and/or counselors for more information about the courses offered.

SCHEDULE CHANGES

Once the school year begins, schedule changes are difficult. Make thoughtful decisions on your course selections and your alternate course selections. If you are scheduled into a course, it may not be possible to change your schedule. Contact your guidance counselor prior to the start of the school year to request any course changes.

GRADE PROMOTION

Promotion from one grade to the next depends upon the accumulation of credits. Please see the following credit guidelines:

Grade Level	Credits Needed
Sophomore	25
Junior	55
Senior	85
Graduate	120

Failure to earn the required credits listed above will result in retention. Grade level homeroom and lunch for the upcoming school year will be based on student credit status.

GRADUATION CEREMONY

1. No student may participate in the graduation ceremony or receive a diploma unless all graduation requirements have been met.
2. Participation in the graduation exercise is a privilege extended to those students who have successfully completed the graduation requirements and whose school citizenship is not in question.

VISUAL/PERFORMING ARTS

The following courses will fulfill the 5-credit visual/performing arts graduation requirement.

AP Studio Art	Photographics (both levels)
Architectural Drawing	Pottery (all levels)
Art Fundamentals	Sculpture (both levels)
Beginning Guitar	Select Symphonic Band
Choir (all levels)	String Orchestra (all levels)
Clothing Construction & Fashion Studio (all levels)	Theatre Arts (both levels)
Computer Assisted Design (both levels)	Theatre Dance (both levels)
Hand-Built Pottery	TV Production (all levels)
Microsoft Office	Vocational School
Music Theory (both levels)	Wind Ensemble (both levels)
Painting and Drawing (all levels)	

21st CENTURY LIFE & CAREER/CAREER & TECHNICAL EDUCATION (PRACTICAL ARTS)

The following courses will fulfill the 5-credit practical arts graduation requirement.

Anatomy & Physiology	How to Fix Darn Near Anything
AP Comparative Government	Intro to Computer Programming
AP Computer Science A	JROTC
AP Computer Science Principles	Life 101
AP Microeconomics	Marine Technical Services
AP Psychology	Metalwork (both levels)
AP U.S. Government & Politics	Music Theory (both levels)
Architectural Drawing	Microsoft Office
Auto Mechanics (all levels)	Nutrition
Child Development (all levels)	Photographics (both levels)
Clothing Construction & Fashion Studio (all levels)	Power Mechanics
Computer Assisted Design (both levels)	Small Business Management
Creative Baking	Sports Medicine
Communication Concepts: Speech & Writing	Tomorrow's Teachers
Critical Issues in Sociology	Topics in Business
Digital Technologies	TV Production (all levels)
Economics	United States Law and Society
Engineering	Vocational School
Fundamental Foods	Woodworking (all levels)
Global Foods	Yearbook

INDEPENDENT STUDY

In order to be eligible for an independent study course, students must have exhausted the course offerings in the chosen area of study. Interested students should discuss their plan with their guidance counselor. Prior to scheduling an independent study course, students must submit a detailed course plan and obtain approval from the teacher, parent, guidance counselor, department supervisor, guidance supervisor and principal.

NOTES

- Career exploration/development and technology education, as required by the State, are infused into existing programs.
- Local history and culture are emphasized throughout the curriculum.
- Course registration is restricted only by prerequisites, teacher recommendations and grade levels. All courses are open to all students regardless of gender, race, national origin, age, or religion.

GRADING PROCEDURES

Report cards will be posted on the grading portal quarterly and will indicate grades and teacher comments. Progress reports will be posted on the grading portal midway through each quarter. Quarterly and final assessments are given for all full-year courses.

Quarterly report cards and final transcripts reflect numeric grades. The following grade equivalents apply:

A	92 - 100	IN	Incomplete
B	83 - 91	WP*	Withdrawal Passing
C	74 - 82	WF*	Withdrawal Failing
D	70 - 73	P	Passed
F	69 and below (no credit)		

*Grades reported as a WP/WF will be permanently recorded on the student transcript.

Students who achieve the following will be recognized for Honor Roll and High Honor Roll:

Honor Roll	83 or better in every class
High Honor Roll	92 or better in every class

WEIGHTED COURSES

All Honors and Advanced Placement courses carry additional weighting points that are utilized in calculating student grade point averages and class rank. This weighting recognizes the increased demand of the following courses:

AP Biology	AP Psychology	Honors English III
AP Calculus I	AP Spanish Language	Honors French IV
AP Calculus II	AP Statistics	Honors Geometry
AP Chemistry	AP Studio Art	Honors German IV
AP Comparative Government	AP U.S. Government & Politics	Honors Japanese IV
AP Computer Science A	AP United States History II	Honors Latin IV
AP Computer Science Principles	AP World History: Modern	Honors Select Choir
AP English III Lang. & Comp.	Honors Algebra II	Honors Spanish IV
AP English IV Lit. & Comp.	Honors Aviation Ground School	Honors Select String Orchestra
AP European History	Honors Biology	Honors Trig/Pre-Calculus
AP Microeconomics	Honors Calculus	Honors United States History I
AP Music Theory	Honors Chemistry	Honors Wind Ensemble
AP Physics 1	Honors English I	Honors World History
AP Physics 2	Honors English II	

GPA/RANK

Grade point averages (GPA) are calculated on a 100-point scale. Class rank will be calculated using the following weighted factor index.

Honors Courses	Passing Grades (70 and above)	Multiply numeric grade by 1.10*
AP Courses	Passing Grades (70 and above)	Multiply numeric grade by 1.15*
<i>*No weight will be given for failing grades (69 and below) in AP or Honors Courses.</i>		

ADVANCED PLACEMENT

Many colleges award credit or advanced standing for outstanding achievement on Advanced Placement (AP) exams. Each college and degree program maintains their own standards for awarding AP credits. Go to [College Board](#) to find colleges and universities that offer credit or placement for AP scores. AP exams are scored on a 5-point scale: 5 (extremely well qualified), 4 (well qualified), 3 (qualified), 2 (possibly qualified) and 1 (no recommendation). AP scores are released in early July.

Students enrolled in an AP course are required to take the corresponding AP exam that is administered in May. In October, AP exams will be ordered for every student enrolled in AP classes and the fees will be covered by the school district. If a student does not take the AP exam, he/she will be charged the return test fee of \$40.

Southern Regional offers the following AP courses:

AP Biology	AP English III Language & Composition	AP Psychology
AP Calculus I	AP English IV Literature & Composition	AP Spanish Language
AP Calculus II	AP European History	AP Statistics
AP Chemistry	AP Microeconomics	AP Studio Art
AP Comparative Government	AP Music Theory	AP U.S. Government & Politics
AP Computer Science A	AP Physics 1	AP United States History II
AP Computer Science Principles	AP Physics 2	AP World History: Modern

In order to properly prepare students for success on the AP exam, students will be held to higher expectations for both class work and homework. Advanced Placement courses will be noted on the student transcript.

CO-CURRICULAR ELIGIBILITY

Students interested in participating in co-curricular activities (after school sports, clubs, and activities) **MUST** meet the following Southern Regional eligibility requirements:

Season	Grade 9	Grade 10	Grade 11	Grade 12
Fall	All Eligible	30 credits must have been earned from previous year	30 credits must have been earned from previous year	30 credits must have been earned from previous year
Winter	All Eligible	30 credits must have been earned from previous year	30 credits must have been earned from previous year	30 credits must have been earned from previous year
Spring	Must be passing equivalent of 30 credits (15 from 1 st semester)	Must be passing equivalent of 30 credits (15 from 1 st semester)	Must be passing equivalent of 30 credits (15 from 1 st semester)	Must be passing equivalent of 30 credits (15 from 1 st semester)

STOCKTON UNIVERSITY DUAL CREDIT PROGRAM

The dual credit program allows students **the option** to sign up in advance to receive both high school and college credits for the same course.

Courses

Southern Regional and Stockton University will offer the following courses with an option for dual credit. The following course list is subject to change.

Advanced Trig & Pre-Calculus	Honors French IV	Theatre Arts
Honors Trigonometry & Pre-Calculus	German III	Advanced Theatre Arts
Honors Calculus	Honors German IV	Tomorrow's Teachers
AP Calculus	Latin III	Anatomy & Physiology
AP Calculus II	Honors Latin IV	News Broadcasting
AP United States History II	Spanish III	Topics in Business
French III	Honors Spanish IV	Small Business Management

Cost

Each academic credit costs \$100. All tuition must be paid in the fall of the academic year directly to Stockton University.

Credits

Upon successful completion of the course, credits will be recorded on an official Stockton transcript. Transcripts must be obtained directly from Stockton University.

Registration

Students will need to complete and submit an online application to participate in the Dual Credit High School Program at Stockton.

OCEAN COUNTY COLLEGE EMBEDDED COURSE PROGRAM

The dual credit program allows students **the option** to sign up in advance to receive both high school and college credits for the same course.

Courses

Southern Regional and Ocean County College (OCC) will offer the following courses with an option for dual credit. The following course list is subject to change.

College Algebra	Communication Concepts
Marine Biology	

Cost

Each academic credit costs \$110.00. All tuition must be paid directly to OCC.

Credits

Upon successful completion of the course, credits will be recorded on an official OCC transcript. Transcripts must be obtained directly from OCC.

Registration

Students will need to apply to participate in the Ocean County College Embedded Course Program.

EARLY COLLEGE AT OCEAN COUNTY COLLEGE PROGRAM

The Early College program at Ocean County College (OCC) provides an opportunity for Southern Regional students to enroll in college courses at multiple OCC campus locations and earn college credit while attending Southern Regional High School. Interested students should discuss Early College with their guidance counselor.

Eligibility

Students must have completed their sophomore year in high school, obtain approval from their guidance counselor and be in good academic standing in a college prep program. To be eligible to take a math or English class, OCC requires students to demonstrate proficiency through standardized testing.

Costs

Costs for Early College at OCC students are one-half the normal cost per credit plus additional OCC student fees (students are responsible for payment).

Credits

Upon successful completion of a course, credits will be recorded on an official OCC transcript. Transcripts must be obtained directly from OCC.

Courses

Go to the OCC website for Early College at OCC information, a course catalog, and course listings for upcoming semesters www.ocean.edu. Courses are offered in the evening, inter-session and summer.

Registration

Complete the Early College at OCC application (available online and in the guidance office).

COLLEGE ADMISSIONS TESTING

Students should meet with their counselor to develop a testing plan. The following tests are offered at Southern Regional to assist our students in preparing for the college admission process.

PSAT

Students considering college should take the Preliminary Scholastic Achievement Test (PSAT). The PSAT is offered in October to both 10th and 11th grade students. Students planning to take the SAT are strongly recommended to take the PSAT. Students should be enrolled in, or have completed, geometry prior to taking the PSAT. Students must take the PSAT in their junior year to qualify for the National Merit Scholarship Program.

SAT

The SAT is an entrance exam used by most colleges and universities to make admissions decisions. There are two SAT sections: Math, Evidence-Based Reading and Writing. Each section of the SAT is scored on a 200-to-800-point scale, making the maximum score 1600. The SAT exam is offered nationally every year in October, November, December, March, May, June, and August. The SAT is not administered at Southern in November and August. Further information on the SAT is available at www.collegeboard.org.

ACT

The ACT is a national college admissions examination that consists of subject area tests in English, mathematics, reading and science. Each subject area is given a scaled score between 1 and 36. Those area scores are then averaged into a composite score, which also ranges between 1 and 36. This test is an alternative to the SAT and is accepted by colleges and universities. ACT has eliminated many test sites, including Southern Regional. The exam will be available at one school in Ocean County in December, February, April, June, and July. Further information on the ACT is available at www.act.org.

NJ STARS

NJ STARS is a scholarship program sponsored by the State of New Jersey. Students who are in the top 15% of their class are eligible for NJ STARS. Eligible students can receive up to five (5) semesters of tuition (15 credits per term) free of charge at Ocean County College. Students must file a FAFSA annually to be considered for this program. Students also must maintain a grade point average of 3.0 or higher by the start of the second year of enrollment to maintain renewal requirements for NJ STARS. Upon graduation from community college, NJ STARS students may be eligible for NJ STARS II at a four-year New Jersey college or university. Please note that current requirements for NJ STARS eligibility are under review by the State. It is possible that program eligibility requirements may change. For more information, see your guidance counselor or go to www.hesaa.org.

TIMELINE FOR COLLEGE BOUND STUDENTS

The following timeline will guide you through the college preparation/selection process. Select the most academically rigorous program that meets your needs and do the best you can in each of your courses.

Ninth Grade

1. Get involved in activities, clubs, and community service. Keep a list of your activities (include a description, dates, and hours).
2. Discuss your career/college intentions and interests with your parents and counselor.
3. Map out a plan for four years of course work in high school.

Tenth Grade

1. Develop a plan to take college admissions tests (PSAT, SAT, ACT).
2. Continue to discuss your career and college interests with your parents and counselor.
3. Review college entrance requirements.
4. Attend the 'College Night at the Jersey Shore' event in the fall and/or spring. Detailed information about this event can be obtained in the guidance office.
5. Gather information about a variety of colleges.
6. Visit college campuses.
7. Start your resume and list of "Colleges I'm Thinking About" in Naviance.

Eleventh Grade: Fall/Winter

1. Take the PSAT.
2. Attend meetings with college admissions representatives offered through the guidance office. Sign up via your Naviance account.
3. Attend the 'College Night at the Jersey Shore' event in the fall and/or spring. Detailed information about this event can be obtained in the guidance office.
4. Attend the SRHS College Planning Workshop with your parents in November.
5. Use SuperMatch in Naviance to refine your college list.
6. Check the guidelines for college admission testing for each college.
7. Visit college campuses.
8. Consider registering for the December or March SAT.

Eleventh Grade: Spring

1. Schedule a meeting with your counselor to discuss college and career options.
2. Refine your list of colleges in Naviance.
3. Develop your plan to take the standardized tests for college admission, if applicable.
4. Visit college website(s) to review application requirements.

Eleventh Grade: Summer

1. Begin writing your college application essay.
2. Create a list of "Colleges I'm Applying To" in Naviance.
3. Visit college campuses.

Twelfth Grade: Fall

1. Submit your academic records release form in the parent portal.
2. Finalize your list of colleges in Naviance.
3. Update your resume in Naviance.
4. Request letters of recommendation in person and then in Naviance.
5. Create a list of your application deadlines.
6. Contact your counselor to request their recommendation at least 3 to 4 weeks prior to your first application due date.
7. Once you submit your application, notify your counselor so they can submit your letters of recommendations, transcript, and a school profile.
8. Attend the SRHS Financial Aid Seminar with your parents in October to assist you in completing the financial aid forms.
9. File a financial aid application online at www.fafsa.gov.
10. Send your test scores to your colleges through your College Board and/or myACT account, as needed.
11. Attend meetings with college admissions representatives offered through the guidance office.
12. Check the list of general scholarships on our website and utilize one of the many free scholarship search engines.

Twelfth Grade: Winter

1. Submit the Southern Regional local scholarship application online by January 31st.
2. Regularly review the local scholarship list on the school website. Scholarships are added throughout the school year. Please note that some scholarship donor groups have additional application requirements such as transcripts or essays.

Twelfth Grade: Spring

1. As you receive admissions decisions, notify your counselor.
2. Notify the college that you plan to attend. Send your acceptance deposit by the deadline specified.
3. Notify your counselor which college you have selected so that the guidance office can submit your final transcript.
4. Complete the Senior Survey in Naviance.

COLLEGE ATHLETIC ELIGIBILITY

Alert your guidance counselor if you are considering participation in college athletics.

NCAA Eligibility

High school student athletes who wish to participate in Division I or II college athletics must meet the NCAA initial-eligibility requirements. Complete details regarding these requirements are available online at the NCAA Eligibility Center www.eligibilitycenter.org.

Core Courses

The NCAA maintains a list of courses offered at Southern that are approved for prospective student-athletes seeking NCAA initial-eligibility. Please refer to the following list of approved core courses. If you have any questions, please see your guidance counselor.

Academic Requirements

To play sports at a Division I or II school, you must graduate from high school, complete 16 NCAA-approved core courses, earn a minimum GPA and earn an ACT or SAT score that matches your core-course GPA.

DIVISION I

Complete 10 NCAA core courses, including seven in English, math or natural/physical science, before your seventh semester.

ENGLISH	MATH (Algebra I or higher)	NATURAL/ PHYSICAL SCIENCE (Including one year of lab, if offered)	SOCIAL SCIENCE	ADDITIONAL (English, math or natural/physical science)	ADDITIONAL COURSES (Any area listed to the left, foreign language or comparative religion/philosophy)
4 years	3 years	2 years	2 years	1 year	4 years

DIVISION II

ENGLISH	MATH (Algebra I or higher)	NATURAL/ PHYSICAL SCIENCE (Including one year of lab, if offered)	SOCIAL SCIENCE	ADDITIONAL (English, math or natural/physical science)	ADDITIONAL COURSES (Any area listed to the left, foreign language or comparative religion/philosophy)
3 years	2 years	2 years	2 years	3 years	4 years

Grade-Point Average

The NCAA Eligibility Center calculates your grade point average (GPA) based on the grades you earn in NCAA-approved core courses.

- Division I requires a minimum 2.3 GPA.
- Division II requires a minimum 2.2 GPA.

Test Scores

Take the ACT or SAT as many times as you want before you enroll full time in college but remember to list the NCAA Eligibility Center (code 9999) as a score recipient whenever you register to take a test. If you take a test more than once, send your scores and the NCAA will use the best scores from each test section to create your sum score.

Sliding Scale

Divisions I and II use sliding scales to match test scores and GPAs to determine eligibility. The sliding scale balances your test score with your GPA. If you have a low test score, you need a higher GPA to be eligible. Find more information about sliding scales at www.ncaa.org/student-athletes/future/test-scores.

OCEAN COUNTY VOCATIONAL TECHNICAL SCHOOL

Shared Time Programs

Juniors and seniors may attend Ocean County Vocational Technical School (OCVTS) part time. Seats are limited so students are encouraged to apply during the year prior to enrollment. Most programs require two years of attendance. OCVTS programs are designed to provide the education and training necessary for students to pursue employment and/or enroll in a college or technical school upon graduating high school.

Special Education Programs

OCVTS offers a variety of part time Employment Orientation (EO) vocational programs for students with special needs. If you would like to know more about the Special Education vocational school programs, contact your Child Study Team case manager or guidance counselor.

Full Time Vocational Programs

OCVTS offers the following full-time programs. Students take all coursework at the OCVTS campus and receive their high school diploma from OCVTS. See the OCVTS course guide for details.

- Marine Academy of Technology and Environmental Science (MATES)
- Performing Arts Academy (PAA)
- Academy of Law and Public Safety (ALPS)

Students who chose to transfer to a full time OCVTS school will be permitted to participate in Southern Athletics; however, they will not be eligible for enrollment in or attendance at special Southern Regional events such as the Winter Formal, Proms, Senior Class Trip, Senior Service Day, and the SRHS Scholarship Program.

Admission Procedures

Applications and course description booklets may be obtained from the Southern Regional guidance office. The decision of acceptance is made solely by OCVTS and is based on space availability, grades and attendance. **If you plan to attend OCVTS, indicate Course # 9600 on your Course Selection Sheet.**

Prerequisites

- Guidance counselor recommendation.
- Grades and attendance will be reviewed prior to acceptance. *Once enrolled at OCVTS, attendance is strictly monitored and directly affects a student's grade. Poor attendance can affect enrollment status.*

Schedule

OCVTS students attend OCVTS for half of the school day and then take classes at Southern for the other half of the day. Students considering vocational school need to plan course selections carefully to be sure they will meet the eligibility requirements necessary to attend. Vocational students must meet all the same graduation requirements that non-vocational students must meet including specific courses and credit totals.

Benefits

Successful completion of a program at the OCVTS will enable a student to:

- Earn a certificate of achievement from OCVTS, in addition to various State/National certifications.
- Obtain assistance with job placement in related fields of employment.
- Receive scholarship assistance for post-secondary vocational programs.
- Earn college credits (Tech Prep programs).

See chart on next page for a listing of OCVTS Courses or go directly to the OCVTS website at www.ocvts.org.

OCEAN COUNTY VOCATIONAL TECHNICAL SCHOOL

COURSE OFFERINGS

Applied Arts		
Audio Engineering (Tech Prep)	2 years	PAA
Design and Visual Communications (Tech Prep)	2 years	Brick
Fashion Design/Merchandising (Tech Prep)	2 years	Brick
Engineering/Computers & Design		
Computer Science (Tech Prep)	2 years	Toms River
Computer Systems Networking & Telecommunications	2 years	Toms River
Engineering Technology	2 years	Jackson
Construction Trades		
Building Construction Technology	2 years	Brick
Custom Woodworking and Design	2 years	Jackson
Electrical Trades	2 years	Jackson/Toms River
Heating, Ventilation, Air Conditioning and Refrigeration (HVAC-R) (Tech Prep)	2 years	Brick
Heavy Equipment Operator	2 years	Jackson
Plumbing, Pipefitters, Steamfitters & Fire Suppression Systems	2 years	Brick
Welding	2 years	Toms River
Health Technologies		
Dental Assisting	2 years	Toms River
Health and Fitness Technology (Tech Prep)	2 years	Toms River
Medical Assistant	2 years	Toms River
Pre-Nursing	2 years	Toms River/Jackson
Service Occupations		
Cosmetology	2 years	Brick/Jackson/Toms River
Culinary Arts (Tech Prep)	2 years	Brick
Human Development & Child Care	2 years	Brick
Transportation Technologies		
Automotive Technology (Tech Prep)	2 years	Brick/Jackson/Waretown
Collision Repair	2 years	Jackson
Diesel Engine Technology (Tech Prep)	2 years	Jackson
Marine Service Technology	2 years	Toms River

Tech Prep indicates programs that have an established agreement with a post-secondary institution for students to earn college credit or advanced standing. See the OCVTS course guide for details.

APPLIED TECHNOLOGY

Mr. Gerald Tabbacchino, Lead Teacher

All students will need to successfully complete five credits in practical arts in order to fulfill the State mandated graduation requirement. All of the following applied technology courses meet this requirement. Students will find these courses useful and fulfilling as they prepare for the high-tech age of the 21st century.

8807	PHOTOGRAPHICS I	Full Year	Grades 9-12	5 Credits
Come experience how to take better digital/analog pictures, process film, make enlargements in the darkroom & use the latest digital enhancement programs. We use Adobe products such as Photoshop & Illustrator. We participate in the Ocean County Camera Club Contest to allow students to show off their talents.				
8808	PHOTOGRAPHICS II	Full Year	Grades 10-12	5 Credits
Prerequisites: Photographics I and teacher recommendation This is an in-depth study of photography and graphics in both the analog & digital worlds. Adobe products including Photoshop, Illustrator, and Lightroom will be used. Many independent assignments, projects and photo contests will be done to allow students to expand their creativity.				
8507	POWER MECHANICS	Full Year	Grades 9-12	5 Credits
In today's economy everything is going up in price and society is becoming more dependent on paying someone else to perform any type of skilled service. Here is an opportunity to gain the basic knowledge of maintaining and repairing mechanical items on your own without having to repeatedly replace them or pay someone to fix them. In Power Mechanics students will gain a basic knowledge of automotive maintenance and emergency car procedures as well as some good tips for used car buying. They will learn how to use basic hand tools safely and appropriately, winterize seasonal equipment and clean fuel systems. The heart of the course will revolve around two and four-stroke engine principles and troubleshooting and will culminate in the complete rebuild of a four-stroke engine. During the rebuild all of the engine's systems will be thoroughly discussed and students will have the opportunity to test their engine's performance.				
8510	MARINE TECHNICAL SERVICES	Full Year	Grades 10-12	5 Credits
Prerequisite: Power Mechanics A full year course focusing on preparing students to work in the marine industry or simply to strengthen skills required to service and maintain their own watercrafts. Students will learn the basics in boat ownership and seamanship so they may be able to work safely in the marine field. Topics will include identifying different types of watercrafts, as well as the power plants that propel them. Skills taught will resemble those desired by local employers throughout an annual boating cycle in our area. Students will learn how to maintain, diagnose, and repair watercrafts, engines, and trailers. There will also be an emphasis on engine rigging, winterizing and spring fire up services.				
8310	WOODWORKING I	Full Year	Grades 9-12	5 Credits
Students will create a basic piece(s) of residential furniture using fundamental design principles, as well as the basic applications of mathematics and geometry during the planning and layout stage. Students will experience the use of a complete range of necessary hand tools as well as many of the power tools used in furniture production technology.				

8320	WOODWORKING II Prerequisite: Woodworking I This course is an extension to further the students' knowledge as it pertains to the woodworking industry in areas such as efficient production, the environment (alternate materials) and more complex mathematical solutions to design and/or reproduce the highest quality of furniture. Production standards, joinery quality and the development of social skills to work with others are a focus of the course. Students will receive further instruction on the use of modern machinery used in the production of fine furniture.	Full Year	Grades 10-12	5 Credits
8330	WOODWORKING III Prerequisite: Woodworking II This course allows students to explore a wide variety of the problem solving and mathematical issues that pertain to wood as a building, furniture, and general-purpose material. The student will have to acknowledge the environmental impact and social issues that are behind the scenes in the woodworking industry. Students will work from existing designs or develop their own design concepts in order to produce one independent and one group project. Students will also be required to give 20 hours each (from class time) toward the development of a school community task, which will make them more socially aware of how the woodworking industry plays a major role in our everyday lives.	Full Year	Grades 11-12	5 Credits
8331	WOODWORKING IV Prerequisite: Woodworking III This course allows students to explore a wide variety of the problem solving and mathematical issues that pertain to wood as a building, furniture, and general-purpose material. The student will have to acknowledge the environmental impact and social issues that are behind the scenes in the woodworking industry. Students will work from existing design or develop their own design concepts in order to produce one independent and one group project. Students will also be required to give 20 hours each (from class time) toward the development of a school community task, which will make them more socially aware of how the woodworking industry plays a major role in our everyday lives.	Full Year	Grade 12	5 Credits
8540	AUTO MECHANICS I This course is for the student who is considering a career in auto mechanics, enjoys working on vehicles as a hobby or would like to service their own vehicle. In addition to oil changes, tune-ups and brake jobs, students will learn how to repair and replace tires, test batteries and electrical systems, balance wheels and diagnose trouble codes with a scan tool. Most instruction will be on real working vehicles in a real shop setting; however, some lessons will involve mock-ups or videos. The student who wishes to concentrate in the field of auto mechanics should take this course in 10 th grade.	Full Year	Grades 10-12	5 Credits
8550	AUTO MECHANICS II Prerequisite: Auto Mechanics I This course takes the skills and knowledge obtained in Auto Mechanics I and builds on that foundation. Working more efficiently is a focal point at this level, more tools and equipment will be introduced which will help in achieving that goal. Students will also continue to work and learn on vehicles, while evaluating problems and researching solutions on their own.	Full Year	Grades 11-12	5 Credits
8560	AUTO MECHANICS III Prerequisite: Auto Mechanics II This is a continuation of Auto Mechanics II. Students will be expected to assume increased responsibility for diagnosing problems and repairs. Theoretical problems will be discussed, and solutions presented, as well as discussion of present-day topics related to automobiles and the industry.	Full Year	Grades 11-12	5 Credits

8350	HOW TO FIX DARN NEAR ANYTHING	Full Year	Grades 11-12	5 Credits
Planning on ever owning a house or a car? How about just being more self-reliant or just keeping a little extra pocket money. This is a hands-on course that will guide students through a variety of home improvement and repair projects. Students will learn to troubleshoot and tackle the most common household repairs including basic plumbing, replacing a window, drywall repair, hanging a new door, general carpentry, and many others. Basic automobile maintenance and repair will also be introduced along with a variety of skills that will assist all future homeowners.				
8606	METALWORKS I	Full Year	Grades 9-12	5 Credits
This course is designed to give a student a well-rounded introduction to various areas of metalworking. Each student will use problem solving, design, layout skills and their ability to use tools to create projects in metal. Areas explored are sheet metal, wrought iron work, machining and welding, giving the student the information and experience to help make intelligent career choices.				
8607	METALWORKS II	Full Year	Grades 10-12	5 Credits
Prerequisite: Metalworks I				
This course is designed to take the knowledge learned and skills acquired in Metalwork I to the next level of expertise. With more complex projects being introduced, students will be taught how to understand shop drawings and blueprints. Advanced techniques on the lathe and milling machines will be learned as well as CNC (Computer Numerical Control) machining being introduced and explored. Basic mathematical skills are needed to read and write programs used by the computer. Advanced welding will be taught using Arc, MIG and TIG welds, with a major emphasis on TIG, the industry's premier weld. The oxyacetylene cutting torch and plasma arc cutting are also used. The course will introduce each student into the intricacies of the manufacturing world.				
8446	COMPUTER ASSISTED DESIGN I	Full Year	Grades 9-12	5 Credits
Students will be introduced to AutoCAD, the industry standard computer drawing and design program. The course is designed to develop and enhance problem solving and critical thinking abilities while expressing ideas and specifications in precise detail. AutoCAD skills and techniques will be acquired through hands-on experiences and those skills will be further developed through the production of 3-D models, wire frame models and rendered drawings.				
8447	COMPUTER ASSISTED DESIGN II	Full Year	Grades 10-12	5 Credits
Prerequisite: Computer Assisted Design I				
Students will have the opportunity to explore the full capabilities of the high-powered drawing program AutoCAD. In a problem-solving format, students will develop advanced drawing and communication skills in areas such as machine drawing, engineering, solid modeling, rendering and 3-D imaging. AutoCAD skills and techniques will be further developed through hands-on experiences as students utilize decision-making and self-management skills vital for both the career minded and college bound student.				
8470	ARCHITECTURAL DRAWING	Full Year	Grades 10-12	5 Credits
Prerequisite: Computer Assisted Design I				
In this course students will research and develop plans for a residential dwelling. Each student will design his/her own building and develop a set of functional plans. Considerations will include materials, cost, site location, heating and cooling, functionality, aesthetic design, and other requirements. AutoCAD, a state-of-the-art drawing, and design program will be used, and each student will leave with a set of drawings of his/her house plans.				
8809	DIGITAL TECHNOLOGIES	Full Year	Grades 9-12	5 credits
In this course, students will learn the basics of animation, video editing, graphic & web design. Students will create, model, and manufacture designs using Illustrator, edit and manipulate images in Photoshop, learn the fundamentals of animation necessary to create a variety of their own animations, learn to capture and edit video to create various video projects and learn the fundamentals of building a basic website.				

ART

Mrs. Darlene Parks, Supervisor

All students will need to successfully complete five credits in visual or performing arts in order to fulfill the State mandated graduation requirement. All of the following art courses meet this requirement. Students may choose to explore a variety of media by subscribing to the Art Fundamentals class or may choose any of the specialized courses offered. All courses are focused on having students achieve proficiency in the New Jersey Student Learning Standards for Visual Arts, which include: the Formal Elements of Art and Design Principles, Art History, Creating Art, Aesthetic Responses and Critique Methodologies. Student artwork is often showcased or exhibited throughout the school and community. Benchmark assessments will be administered quarterly.

7004	ART FUNDAMENTALS	Full Year	Grades 9-12	5 Credits
The purpose of this foundational course is to allow students to sample the coursework of the various specialized art courses offered at Southern. Students will be introduced to a variety of art making techniques, media, styles, and subjects. The course focuses on both 2-D and 3-D work, which includes: drawing, painting, 2-D design, printmaking, sculpture, pottery/ceramics, and collage.				
7110	PAINTING & DRAWING I	Full Year	Grades 9-12	5 Credits
Painting and Drawing I is recommended for those students who are specifically interested in learning basic painting and drawing techniques. Students will explore a variety of traditional, realistic, and imaginative painting and drawing techniques, including portraits, perspective, color theory, and design principles. Students will be expected to measure and use a ruler.				
7120	PAINTING & DRAWING II	Full Year	Grades 10-12	5 Credits
Prerequisites: Painting & Drawing I or Art Fundamentals and teacher recommendation				
This course is designed for the serious, motivated art students who wish to strengthen their skills in drawing, painting, color theory, and art criticism. Course work includes various drawing techniques as well as realistic acrylic painting techniques based on direct observation of still-life subjects, photographs, and color theory exercises. Figurative, landscape, and abstract subjects will also be explored. Students will complete oral and written critiques.				
7130	PAINTING & DRAWING III	Full Year	Grades 11-12	5 Credits
Prerequisites: Painting & Drawing II and teacher recommendation				
This course is designed for students who demonstrate a high degree of motivation and ability and wish to develop a painting and drawing portfolio for college credit and/or college application. Course work includes still life, figurative, value studies in various media, oral and written critiques. The curriculum during the second half of the year addresses the "sustained investigation" component of the AP portfolio. Students will choose a concentration topic and start creating pieces for their senior AP portfolio. Students will also compile their artwork, to start creating a personal digital portfolio.				
7140	PAINTING & DRAWING IV/AP STUDIO ART	Full Year	Grade 12	5 Credits
Prerequisites: Painting & Drawing III and teacher recommendation				
This is the second year of a two-year AP Studio Art curriculum. This course is designed for students who demonstrate a high degree of motivation and ability and wish to develop a painting and drawing portfolio for college credit and/or college application. The curriculum addresses the two sections of the AP portfolio which are sustained investigation and the selected works section. Students will demonstrate skillful synthesis of materials, processes, and ideas, and they will conduct a sustained investigation based on questions, practice, experimentation, and revision. Self-critique and reflection will also be required. Students enrolled in this AP course will be required to take the AP exam administered in May (exam fees will be paid by the district).				
7210	SCULPTURE I	Full Year	Grades 9-12	5 Credits
This course will enable students to explore a wide variety of sculpting techniques and various media, including air dry clay, paper-mache, foam, and wire. Tools and safety equipment will be emphasized before students begin to work. Preliminary drawings and research will also be required before students begin to sculpt with materials. Discussion and project construction will enable students to enhance their understanding of both 2-D and 3-D art.				

7220	SCULPTURE II Prerequisite: Sculpture I In Sculpture II students will build upon the knowledge and skills they developed in Sculpture I. Students will experiment with various sizes, shapes, and media. Students will focus on the creative process that moves them to create original works of art, which will then become part of their personal portfolios. Students will learn about individual artists and their works, which will serve to guide their own artistic projects. Students will be required to maintain a sketchbook to track progress and record notes.	Full Year	Grades 10-12	5 Credits
7540	HAND-BUILT POTTERY This course will concentrate on in-depth experimentation of hand-building techniques which include pinching, modeling, coiling, clay sculpture, and slab building. Any or all of these methods can be used in combination to form functional and sculptural pottery. Glazing and various decorating techniques will be explored in order to enhance the shape and function of the hand-built art works. Open to all students, including those who have taken a pottery class.	Full Year	Grades 9-12	5 Credits
7545	HAND-BUILT POTTERY II Prerequisites: Hand-Built Pottery I and teacher recommendation This is a sequential learning course designed for the serious hand-building student. Students are building their knowledge based upon the methods and techniques learned in Hand-Built I and will be applying this knowledge to create more complex projects. Students must possess strong hand-building technique. In the second year of Hand-Built, students will concentrate on the aesthetic sculptural quality of the clay as a vessel, while placing an emphasis on free standing sculpture, as well as, exploring a variety of high fire clay bodies and glazes including porcelain. Advanced hand-building methods will be explored, such as large-scale objects and fountains. An emphasis will be placed on the concept that the vessel can be both decorative as well as functional. Students will proceed to the next level of critical thinking, as well as informed assessments.	Full Year	Grades 10-12	5 Credits
7510	POTTERY I A variety of methods of pottery design, including coil, wheel-thrown and others, will be studied. An emphasis will be placed on the wheel-throwing method where basic forms will be explored and a strong foundation in wheel throwing techniques will be built. An in-depth study in surface design and decoration will be explored.	Full Year	Grades 9-12	5 Credits
7520	POTTERY II Prerequisites: Pottery I and teacher recommendation This is a sequential learning course designed for the serious pottery student. Students are building their knowledge based upon the methods and techniques learned in Pottery I and will be applying this knowledge to more complex projects. Students must possess strong throwing skills and some understanding of the hand-building method of pottery. In the second year of pottery, students will concentrate on the aesthetic sculptural quality of the vessel and the technical aspects of pottery as an art form. Both the wheel throwing and hand-building methods will be explored. An emphasis will be placed on the concept that the vessel can be both decorative as well as functional. A focus will be placed upon large scale vessels and making specific forms. Students will proceed to the next level of critical thinking, as well as informed assessments.	Full Year	Grades 10-12	5 Credits
7530	POTTERY III Prerequisites: Pottery II and teacher recommendation The third-year pottery course is designed for the dedicated art student who possesses a serious interest in pottery and strong wheel throwing technique. Students are building their knowledge based on the methods and techniques learned in Pottery II. Students must have strong working knowledge of the potter's wheel and various hand-building techniques. This course includes instruction in advanced methods of clay construction, design, and decoration. Both the wheel throwing and hand-building methods will be explored. In the third year of pottery, students will concentrate on the aesthetic sculptural quality of the vessel and the technical aspects of pottery as an art form. A focus will be placed on making large-scale vessels than can be decorative as well as functional. Students will also explore different bodies of clay, such as porcelain and stoneware.	Full Year	Grades 11-12	5 Credits

BUSINESS EDUCATION

Mrs. Darlene Parks, Supervisor

- | | | | | |
|---|----------------------------------|------------------|---------------------|------------------|
| 6141 | SMALL BUSINESS MANAGEMENT | Full Year | Grades 11-12 | 5 Credits |
| <p>An entrepreneurial approach to small business management with emphasis on the importance of management skills, industry knowledge, and strategic planning. Specific topics will include small business creation, business plan development, marketing, operations, personnel, finance, business law, and community responsibility. The primary course objective is to provide students with a realistic formula for successfully operating a small business. Students will have opportunities to interact with local business owners to learn the intricate workings of small business environments. Students enrolled in this course may be eligible to earn college credits through our dual credit partnership with Stockton University.</p> | | | | |
| 6068 | MICROSOFT OFFICE | Full Year | Grades 9-12 | 5 Credits |
| <p>This course provides students with the skills they need to effectively use the Microsoft Office Suite. Students will learn to use the features of Microsoft Word, Access, PowerPoint, and Excel, which are extremely beneficial for college and personal use.</p> | | | | |
| 6200 | TOPICS IN BUSINESS | Full Year | Grades 9-12 | 5 Credits |
| <p>Thinking of a possible future in business? This course is designed to introduce students to the multi-faceted world of business. Units of study include Accounting, Economics, Finance, Business Law and Ethics, Marketing, and Human Resource Management. Students will foster and expand their knowledge of the business world, learn of possible areas of concentration available for college study, and explore career opportunities. This course satisfies the graduation requirement for financial literacy. Students enrolled in this course may be eligible to earn college credits through our dual credit partnership with Stockton University.</p> | | | | |

- * **INTRODUCTION TO COMPUTER PROGRAMMING** is in the mathematics section.
- * **AP COMPUTER SCIENCE A** is in the mathematics section.
- * **AP COMPUTER SCIENCE PRINCIPLES** is in the mathematics section.
- * **ECONOMICS** and **AP MICROECONOMICS** are in the social studies section.
- * **DIGITAL TECHNOLOGIES** is in the applied technology section.

ENGLISH

Mrs. Darlene Parks, Supervisor

Student Criteria for Honors/Advanced Placement English Courses:

The following criteria have been established in order to ensure that students are successful in their academic endeavors and to maintain the standards set for the curriculum designed for an Honors and/or AP course:

1. A recommendation from the current English teacher.
2. The student will have achieved a grade of at least an 83 in an Honors/AP course or at least a 93 in an Advanced class.
3. Students who take an Honors/AP course will be required to complete an additional summer reading assignment. All summer reading assignments will be posted on the school website.
4. Students wishing to move up to an Honors/AP level class from an Advanced level class will be required to complete a writing sample after school.

Student Criteria for placement in all other levels of English Courses:

Students' performance in their current English classes, teacher recommendation, and standardized test scores are taken into consideration when students are recommended for their English courses.

1110	ENGLISH I	Full Year	Grade 9	5 Credits
	This is a college preparatory course. This course will challenge students academically by engaging students in critical reading, writing, and thinking tasks. Core literature includes representative poetic and short story works with an emphasis on the short story, the contemporary novel and representative seminal U.S. documents and speeches. Also studied are: <i>Of Mice and Men</i> , <i>The Odyssey</i> , and <i>Romeo and Juliet</i> . Research, vocabulary, and grammar programs are components of this course. A summer reading assignment is a requirement of this course.			
1120	ADVANCED ENGLISH I	Full Year	Grade 9	5 Credits
	This course is for motivated, independent learners who desire to prepare for college. Students selecting this program should have highly honed language skills and desire to further develop their critical reading, writing, and thinking abilities. Additional supplemental readings and texts will be required. Students should be prepared to complete a significant amount of reading and work outside of the classroom. Core literature includes representative poetic and short story works with an emphasis on the short story, the contemporary novel and representative seminal U.S. documents and speeches. Also studied are: <i>Of Mice and Men</i> , <i>The Odyssey</i> , and <i>Romeo and Juliet</i> . Outside supplemental readings are an additional component of this program. Research, vocabulary, and grammar programs are components of this course. A summer reading assignment is a requirement of this course.			
1130	HONORS ENGLISH I	Full Year	Grade 9	5 Credits
	This course is for highly motivated, independent learners with academic initiative who desire to prepare for college. Students selecting this program should have a strong preference for intensive academic rigor, wish to apply knowledge, creativity and energy to their academic endeavors and strive to acquire a finer appreciation of the subtleties of language. This course places students on the advanced placement track. Students should be prepared to engage in extensive learning outside the boundaries of the classroom. Core literature includes representative poetic and short story works with an emphasis on the short story, the contemporary novel and representative seminal U.S. documents and speeches. Also studied are: <i>Of Mice and Men</i> , <i>The Odyssey</i> , and <i>Romeo and Juliet</i> as well as a variety of non-fiction essays. A variety of supplemental texts will be required outside reading. Research, vocabulary, and grammar programs are components of this course. Multiple summer reading assignments are required.			

1210	ENGLISH II Prerequisite: English I This is a college preparatory course. Students will further develop language skills by engaging in critical reading, writing and thinking. Core literature includes study of the contemporary novel, Shakespearean drama, poetry, speeches, informational articles, and essays. Research, grammar, and vocabulary are also important components of this course. Students will be required to create projects, produce essays, and work collaboratively in order to develop 21 st century technology skills as well as meet college and career readiness standards. A summer reading assignment is a requirement of this course.	Full Year	Grade 10	5 Credits
1220	ADVANCED ENGLISH II Prerequisite: Advanced English I This course is for highly motivated, independent learners with academic initiative who desire to prepare for college. Students selecting this program should have highly honed language skills and desire to further develop their critical reading, writing and thinking abilities. Additional supplemental readings and texts will be required. Students should be prepared to complete a significant amount of reading and work outside of the classroom. Core literature includes study of the contemporary novel, Shakespearean drama, poetry, speeches, informational articles, and essays. Research, grammar, and vocabulary are also important components of this course. Students will be required to create projects, produce essays, and work collaboratively in order to develop 21 st century technology skills as well as meet college and career readiness standards. A summer reading assignment is a requirement of this course.	Full Year	Grade 10	5 Credits
1230	HONORS ENGLISH II Prerequisites: Honors English I with an 83 or better or Advanced English I with a 90 or better and teacher recommendation This course is for highly motivated, independent learners with academic initiative who desire to prepare for college. Students selecting this program should have a strong preference for intensive academic rigor, wish to apply knowledge, creativity and energy to their academic endeavors and strive to acquire a finer appreciation of the subtleties of language. This course places students on the advanced placement track. Students should be prepared to engage in extensive learning outside the boundaries of the classroom. Core literature includes study of the contemporary novel, Shakespearean drama, poetry, speeches, informational articles, and essays. Research, grammar, and vocabulary are also important components of this course. Students will be required to create projects, produce essays, and work collaboratively in order to develop 21 st century technology skills as well as meet college and career readiness standards. Multiple summer reading assignments are required.	Full Year	Grade 10	5 Credits
1310	ENGLISH III Prerequisite: English II This is a college preparatory course. Students will further develop language skills by engaging in critical reading, writing, and thinking. This course will challenge students academically to further develop language skills by engaging students in critical reading, writing, and thinking tasks. This course will emphasize the study of American Literature, as well as important U.S. documents and modern non-fiction essays. Special attention will be given to writing instruction, vocabulary development, and preparation for standardized tests like the SAT. The college application/resume process will also be reviewed. A summer reading assignment is a requirement of this course.	Full Year	Grade 11	5 Credits
1320	ADVANCED ENGLISH III Prerequisite: Advanced English II This course is for highly motivated, independent learners with academic initiative who desire to prepare for college. Students selecting this program should have highly honed language skills and desire to further develop their critical reading, writing, and thinking abilities. Students should be prepared to complete a significant amount of reading and work outside of the classroom. This course will emphasize the study of American Literature, as well as important U.S. documents and modern non-fiction essays. Special attention will be given to writing instruction, vocabulary development, and preparation for standardized tests like the SAT. The college application/resume process will also be reviewed. A summer reading assignment is a requirement of this course.	Full Year	Grade 11	5 Credits

1330	HONORS ENGLISH III	Full Year	Grade 11	5 Credits
	Prerequisites: Advanced English II with a 93 or better and teacher recommendation This course is for highly motivated, independent learners with academic initiative who desire to prepare for college. Students selecting this program should have a strong preference for intensive academic rigor, wish to apply knowledge, creativity and energy to their academic endeavors and strive to acquire a finer appreciation of the subtleties of language. This course will emphasize the study of American Literature, as well as important U.S. documents and modern non-fiction essays. Special attention will be given to writing instruction, vocabulary development, and preparation for standardized tests like the SAT. The college application/resume process will also be reviewed. Multiple summer reading assignments are required.			
1340	AP ENGLISH III: LANGUAGE AND COMPOSITION	Full Year	Grade 11	5 Credits
	Prerequisites: Honors English II with an 83 or better and teacher recommendation This is a rigorous course which will require students to read complex, non-fiction works from well-renowned writers from the 18 th through 21 st centuries, to understand and analyze the art of rhetoric, and to write complex, controlled, and incisive essays. This is essentially a college level course given in high school so strong reading and writing skills are essential. The course is designed for mature, highly motivated students who are willing to challenge themselves. Students enrolled in this course have the opportunity to prepare for the College Board Advanced Placement Exam and potentially earn college credit. Multiple summer reading assignments are required. Students enrolled in this AP course will be required to take the AP exam administered in May (exam fees will be paid by the district).			
1410	ENGLISH IV	Full Year	Grade 12	5 Credits
	Prerequisite: English III This is a college preparatory course. This course will emphasize the study of British Literature, which will be paired with contemporary non-fiction essays. This course will challenge students academically to further develop their research, reading, writing, speaking, vocabulary, grammar, and critical thinking skills to prepare them for college and career. A summer reading assignment is a requirement of this course.			
1420	ADVANCED ENGLISH IV	Full Year	Grade 12	5 Credits
	Prerequisite: Advanced English III This course is for highly motivated, independent learners with academic initiative who desire to prepare for college. This course will emphasize the study of British Literature, which will be paired with contemporary non-fiction essays. Students selecting this course should expect to complete outside supplemental reading. This course will challenge students academically to further enhance already acquired research, reading, writing, speaking, vocabulary, grammar, and critical thinking skills to prepare them for college and career. A summer reading assignment is a requirement of this course.			
1430	AP ENGLISH IV: LITERATURE AND COMPOSITION	Full Year	Grade 12	5 Credits
	Prerequisites: Honors English III or AP English III: Language and Composition with an 83 or better or Advanced English II with a 90 or better and teacher recommendation This is the most rigorous of the English courses offered senior year. This course will require students to read complex, sophisticated pieces of recognized literary merit. The works studied will come from a variety of time periods and represent a variety of genres including poetry, drama, short stories, and the novel. Students are expected to write papers of analysis, argument, and interpretation with focus, precision, and stylistic maturity. This is essentially a college level course given in high school, so the workload is demanding. Active engagement in class discussions is mandatory. The course is designed for responsible, highly motivated students who are willing to challenge themselves and who are interested in the artistry of imaginative literature. Students enrolled in this course have the opportunity to prepare for the College Board Advanced Placement Exam and potentially earn college credit. Multiple summer reading assignments are required. Students enrolled in this AP course will be required to take the AP exam administered in May (exam fees will be paid by the district).			

1605 COMMUNICATION CONCEPTS: SPEECH & WRITING BEYOND THE CLASSROOM
Full Year Grades 11- 12 5 Credits

Good speaking and writing skills are essential for future success! This college prep course will enhance students' ability to speak and write effectively for a variety of purposes. Students will learn to evaluate a speaker's or writer's point of view as they develop their own. Assignments will give students ample opportunity for expression which will enable them to become better communicators and to acquire increased poise and confidence. **Students enrolled in this course may be eligible to earn college credits through our dual credit partnership with Ocean County College.**

1630 YEARBOOK PRACTICUM
Full Year Grades 11-12 5 Credits

This course offers students a journalistic experience that cultivates a sensitive, responsible, and accurate ability to report the news and to compile it into a meaningful chronicle of the school year. Students learn principles and basic techniques for effective page layouts. They also learn to write news, sports, and feature copy in an acceptable manner according to established standards of journalism. Yearbook Practicum is also a photo-journalistic curriculum. Photographers take pictures, crop, and work with computer designed spreads. This course is for students interested in writing, art, design, computer applications, desktop publishing and photography. Students are expected to work on the yearbook after school when the need presents itself.

ENGLISH AS A SECOND LANGUAGE

Mrs. Darlene Parks, Supervisor

The English as a Second Language (ESL) Program is designed for English Language Learners (ELL) who originate from countries outside the United States and represent a variety of languages. The overall goal of the program is English language acquisition. In the program, students strive to acquire proficiency in listening, speaking, reading, and writing English. As they develop interpersonal communication skills, students also focus on learning English and achieving academic success in other content areas. The ESL program also supports students in meeting district, State, and federal mandates for graduation, including achieving proficiency on standardized tests.

1702 ENGLISH AS A SECOND LANGUAGE Full Year Grades 9-12 5 Credits

This ESL class is designated as a port of entry course for students who have little or no functional ability in English. Students begin to acquire the essential skills needed for basic communication. Developmental reading and writing skills are emphasized. Placement in the program is determined by WIDA MODEL and/or ACCESS tests of English proficiency required by the State. Each student will have at least one class period of ESL per day.

1705 ADVANCED ENGLISH AS A SECOND LANGUAGE Full Year Grades 9-12 5 Credits

This class focuses on further improving English language proficiency as well as developing the comprehensive literacy skills required for academic success in all content area classes. It also prepares ELL students to take the State assessment in language arts and mathematics. Placement in the program is determined by WIDA MODEL and/or ACCESS tests of English proficiency required by the State. Each student will have at least one class period of ESL per day.

FAMILY & CONSUMER SCIENCES

Mrs. Catherine Latshaw, Lead Teacher

All Family and Consumer Sciences courses combine practical application and academic knowledge. By taking the courses, students gain knowledge in various areas while also learning critical thinking and analytical skills. The courses help to create better lifestyles while improving workplace readiness skills and create pathways to future employment and education. All courses will have a standardized benchmark assessment at the end of each quarter. All Family and Consumer Sciences courses will fulfill the practical arts graduation requirement. Clothing Construction courses will fulfill the visual arts graduation requirement as well. Life 101 will fulfill the financial literacy graduation requirement.

8140 CLOTHING CONSTRUCTION & FASHION STUDIO I

Full Year

Grades 9-12

5 Credits

Are you creative? Do you like hands-on projects? Do you like fashion? If you said yes to any of these questions, then Clothing Construction & Fashion Studio I is for you! In this course, students will be inspired to explore the world of fashion. They will learn about the basic tools in sewing, pattern selection and following a pattern, while creating a variety of projects, which may include shirts, bags, pajama pants, pillows, and dresses. Students will discover how clothes are made while developing valuable life skills. An exploration of careers in the fashion industry and the development of a personal portfolio are also components of this course.

8141 CLOTHING CONSTRUCTION & FASHION STUDIO II

Full Year

Grades 10-12

5 Credits

Prerequisite: Clothing Construction & Fashion Studio I

In this more advanced course, students will learn about textile selection and how it relates to clothing construction. Students will select a project that continues to develop their sewing knowledge and skills and enables them to continue learning new concepts such as serging, seam finishes and hems. Projects will be selected jointly by the student and teacher. Students will work on a personal portfolio representing their skill in clothing construction. Careers in the area of textiles and the clothing industry will be studied, as well as influential designers and elements and principles of design.

8142 CLOTHING CONSTRUCTION & FASHION STUDIO III

Full Year

Grades 11-12

5 Credits

Prerequisites: Clothing Construction & Fashion Studio II and teacher recommendation

Using more difficult materials, students will create advanced projects including prom gowns, tailored suits, jackets and coats. Couture sewing will also be introduced. The course is recommended for the student who truly enjoys sewing and wishes to continue advanced learning in this area. Students will work on a personal portfolio representing their skill in clothing construction. Creativity in fashion design and careers in the fashion industry will also be explored. As students complete the areas of study, course projects will include fashion displays, fashion advertising, and fashion modeling. Students will also be key components in the production of the school's ever successful fashion show, gaining experience applicable in the real world.

8143 CLOTHING CONSTRUCTION & FASHION STUDIO IV

Full Year

Grade 12

5 Credits

Prerequisites: Clothing Construction & Fashion Studio III and teacher recommendation

This course is designed for students whose career interests are in Fashion Merchandising or those who desire general knowledge of this topic. As students complete the areas of study, in depth course projects will include fashion displays, fashion advertising, fashion modeling, and another production of the fashion show. Students will utilize advanced technology such as the serger and embroidery machine. Students will learn tailoring techniques in clothing construction and alter existing garments. Pattern construction techniques such as flat pattern design and draping will also be explored. Students will continue to work on a personal portfolio that represents their skill in clothing construction and demonstrates their ability to set goals and think creatively. After following the Clothing Construction & Fashion Studio course sequence for four years, students are sure to be adequately prepared to take on the fashion scene!

8206	CHILD DEVELOPMENT I	Full Year	Grades 9-12	5 Credits
	Students taking the course will learn about the growth and development of children from conception to age six, with emphasis on the preschool child. Appropriate and effective parenting skills for each age level will also be included in the curriculum. An integral part of the course will be the Child Development Learning Lab. Through participation in this program, students will be able to apply their knowledge of child development as well as gain practical experience when working with the preschoolers. Workplace readiness skills are an important aspect of this course.			
8207	CHILD DEVELOPMENT II	Full Year	Grades 10-12	5 Credits
	Prerequisites: Child Development I and teacher recommendation This course is designed to increase the exposure of students to the joys and responsibilities of working with young children in a variety of roles and capacities. Integral parts of the course are teaching in the child development learning lab and mentoring students in the Child Development I course. Students will plan developmentally appropriate projects for all areas of the curriculum. These projects will then be incorporated into a portfolio which will reflect the students' own career interests and understanding of early childhood and elementary level learning.			
8208	CHILD DEVELOPMENT III	Full Year	Grades 11-12	5 Credits
	Prerequisites: Child Development II and teacher recommendation This course will continue to expose students to the joys of working with children. Students will further explore the responsibilities of working with preschoolers in our Child Development Learning Lab and explore careers that have a primary focus working with children. They will continue to mentor other students as well as expand their portfolio started in Child Development II.			
8225	LIFE 101	Full Year	Grades 11-12	5 Credits
	Do you know how to apply to colleges, trade schools or the military? Find a place to live, find a job or manage a bank account? Buy a car or understand all types of insurance? Do you understand the stock market and investing? Can you manage a food budget and cook healthy meals? Can you do this all while going to school and/or holding a job? Sound overwhelming? This course will explore the knowledge and skills necessary for living independently in today's fast paced world. This course will fulfill the financial literacy graduation requirement.			
8006	FUNDAMENTAL FOODS	Full Year	Grades 9-12	5 Credits
	This basic food course will enable the student to plan and prepare a variety of nutritious breakfast, lunch, and dinner menus. Basic food preparation techniques are highlighted, and students will learn to prepare pasta dishes, meats, vegetables, quick breads, eggs, yeast breads, dairy and fruits. Nutrition, safety, and sanitation are of utmost importance and are incorporated throughout the course. An overview of careers in food service is included.			
8026	CREATIVE BAKING	Full Year	Grades 9-12	5 Credits
	This introductory course will introduce students to the art of baking. Students will learn various techniques to successfully prepare an assortment of baked goods. Measuring skills, the science of baking, and culinary careers will also be explored.			
8046	GLOBAL FOODS	Full Year	Grades 11-12	5 Credits
	Students will be introduced to the history, culture, traditions, and cuisine of many different countries as well as regions of the United States. They will gain a broader appreciation of cultural diversity in our society. This course will enhance the student's knowledge of American and world history. Nutrition, safety, and sanitation procedures are incorporated throughout this course.			

8076	NUTRITION	Full Year	Grades 11-12	5 Credits
	<p>The nutrition course examines how the body uses the food we eat. Vitamins, minerals, carbohydrates, proteins, and fats are studied in detail. Students will apply their knowledge in the planning and preparing of menus that will supply essential nutrients. Current issues in nutrition, such as modifying recipes to incorporate more fiber and less fat, leading to a healthier lifestyle will be explored. Alternate protein choices will also be evaluated as well as a variety of specialized diets such as vegetarian, heart healthy, low calorie and sports nutrition. This course is especially recommended for students who have an interest in nutrition and diets, as well as those pursuing careers in the culinary arts field and in the area of medicine, athletics, and health.</p>			
8220	TOMORROW'S TEACHERS	Full Year	Grades 11-12	5 credits
	<p>Prerequisite: Students must complete an application process for the course</p> <p>The Tomorrow's Teachers course is designed to introduce high school students to the teaching profession. Through classroom discussion, projects, field observations and experiences, students will learn about the diverse field of education. Students will develop and demonstrate interpersonal and leadership skills, learn about professionalism, gain an understanding of school structure, policies, and procedures, and discuss current issues in education today. A portfolio of work will be compiled, and a four-to-six-week field experience will allow students to work with children in an area school. This is a rigorous, purposeful, practical course and the expectations are high; a significant amount of work must be accomplished outside the confines of the class period. Students enrolled in this course may be eligible to earn college credits through our dual credit partnership with Stockton University.</p>			

MATHEMATICS

Mr. Michael Concilio, Supervisor

2210	ALGEBRA I	Full Year	Grades 9-10	5 Credits
Algebra I is designed to challenge students in mathematics and to provide a solid mathematical background for post-secondary applications. In this course, the principles of algebraic reasoning are presented. Topics include properties of real numbers, functions, transformations, exponents, polynomials, linear equations, quadratic equations, systems of equations and inequalities. An appreciation of logical reasoning and analysis is developed by presenting students with methods for solving problems by algebraic techniques and by applying these techniques to the real world. The sequence of topics, content emphasis, and use of technology combine a program that gives students a lasting solid foundation in algebra.				
2211	ADVANCED ALGEBRA I	Full Year	Grades 9-10	5 Credits
Prerequisite: Teacher recommendation				
Advanced Algebra I is a rigorous course, which covers all the topics of standard Algebra I. Additional emphasis is placed on the concepts of variables, real numbers, exponents, equations, inequalities, matrices, data analysis, factoring, graphing, functions, Pythagorean Theorem, quadratic equations, rational expressions, radicals, and trigonometric ratios. Concepts are extended to include graphing and solving absolute value inequalities, systems of inequalities, quadratic inequalities, as well as solving exponential functions, including growth and decay. Students develop critical thinking skills and problem-solving techniques needed to conceptually understand and apply algebraic systems for solving problems applied to real world situations. This course will provide a solid foundation for the advanced study of mathematics.				
2220	GEOMETRY	Full Year	Grades 9-12	5 Credits
Prerequisite: Algebra I				
Geometry is designed to provide the college-bound student with the opportunity to work with the tools of geometry, informal and inductive reasoning, and their creative powers to discover the essential geometric concepts necessary to prepare them for further study in mathematics in high school and college. Students will explore the geometric relationships of patterns, congruence, similarity, parallelism, area, volume, transformations, polygons, polyhedra, circles, and spheres. As students understand the informal and inductive development of geometric concepts, deductive reasoning will be introduced.				
2221	ADVANCED GEOMETRY	Full Year	Grades 9-12	5 Credits
Prerequisites: Algebra I and teacher recommendation				
This is an accelerated math course. Advanced Geometry is a rigorous course, which covers all of the topics of standard Geometry. Additional emphasis is placed on the concepts of solid and analytic geometry, postulates and theorems, transformational geometry, right triangle trigonometry, and applications of geometry to other fields. A student who chooses this course should be aware of the following: the range of topics is greater and, in more depth, than a non-advanced course, and the pace is faster. Concepts are extended to include coordinate geometry and proofs as well as applications to real-world problems. Students develop the ability to originate the synthetic proof of geometric theorems and methods of critical and logical thinking needed to investigate and solve problems.				

2222	HONORS GEOMETRY	Full Year	Grades 9-10	5 Credits
	Prerequisites: Honors Algebra I with an 83 or better and teacher recommendation Honors Geometry is a rigorous course, which covers all the topics of a standard geometry class, with an emphasis placed upon the use of postulates and theorems, congruent polygons and triangles, right triangle geometry with an emphasis on Pythagorean Theorem and right triangle trigonometry, Properties of Polygons and Circles, Measurement in One, Two, and Three Dimensions, Transformations, and Similarity. In addition, there is a strong emphasis on the reinforcement of topics learned in Algebra I as they apply to the above listed topics as well as the coordinate plane. Students develop the ability to originate the synthetic proof of geometric theorems and methods of critical and logical thinking needed to investigate and solve problems. In addition, students will be required to use all these techniques to solve real world problems. This course is for the highly motivated math student. Expectations and workload in all honors courses are significant. This accelerated course will require that a significant amount of work be accomplished outside the confines of the class period.			
2307	INTERMEDIATE ALGEBRA	Full Year	Grades 11-12	5 Credits
	Prerequisite: Geometry This course builds upon the concepts presented in Algebra I. Topics include linear and quadratic equations, functions and graphs, analytic geometry, and the real and complex number systems. Inductive and deductive reasoning skills will be strengthened in the exploration of algebraic topics. Technology will be integrated to allow students to explore real world applications of mathematics and mathematical modeling.			
2308	ALGEBRA II	Full Year	Grades 11-12	5 Credits
	Prerequisites: Algebra I and Geometry This course assumes competency in fundamental algebra skills. Students will extend their knowledge of algebraic and statistical concepts by analyzing various relationships. Specifically, students will study inverses and new function families: polynomial, rational, radical, exponential, logarithmic, and trigonometric along with real and complex number systems. Students will also spend a portion of the year deepening their knowledge of probability and statistics. The course provides experience problem solving with the use of technology.			
2309	ADVANCED ALGEBRA II	Full Year	Grades 11-12	5 Credits
	Prerequisites: Advanced Geometry and teacher recommendation This is an accelerated math course. Advanced Algebra II is a rigorous course which covers all of the topics of standard Algebra II. Additional emphasis is placed on the concepts of functions, analysis, conics, logarithmic and exponential functions, and matrices. A student who chooses this course should be aware of the following: the range of topics is greater and, in more depth, than a non-advanced course, and the pace is faster. Additional topics covered include conic sections, counting methods, probability, data analysis, statistics, sequences, and series. Students develop critical thinking skills and problem-solving techniques needed to conceptually understand and apply algebraic systems for solving problems.			
2310	HONORS ALGEBRA II	Full Year	Grades 10-11	5 Credits
	Prerequisites: Honors Geometry with an 83 or better and teacher recommendation This course is for the highly motivated math student. Expectations and workload in all honors courses are significant. This accelerated course will require that a significant amount of work be accomplished outside the confines of the class period.			
2315	COLLEGE ALGEBRA	Full Year	Grades 11-12	5 Credits
	Prerequisite: Algebra II This course is designed for students to extend their understanding of algebra and introduce the study of trigonometry and basic statistics. Functions, including their graphs, will be covered in detail. Students who plan to attend college but are not likely to need calculus for their major can elect to take this course as an alternative to Trigonometry & Pre-Calculus. Students enrolled in this course may be eligible to earn college credits through our dual credit partnership with Ocean County College.			

2240 ADVANCED TRIGONOMETRY & PRE-CALCULUS**Full Year****Grades 11-12****5 Credits****Prerequisites:** Geometry, Algebra II and teacher recommendation

This course expands upon the skills learned in both algebra and geometry and is designed to build a foundation for calculus. Polynomials, rational, exponential, logarithmic, and trigonometric (or circular) functions, as well as some of their properties and graphs are discussed in detail. The concept of conic sections is also covered. Students will learn to use the graphing calculator to analyze functions. This accelerated course will require that a significant amount of work be accomplished outside the confines of the class period. **Students enrolled in this course may be eligible to earn college credits through our dual credit partnership with Stockton University.**

2320 HONORS TRIGONOMETRY & PRE-CALCULUS**Full Year****Grades 11-12****5 Credits****Prerequisites:** Honors Algebra II with an 83 or better and teacher recommendation

This course expands upon the skills learned in both algebra and geometry and is designed to build a foundation for calculus. Polynomials, rational, exponential, logarithmic, and trigonometric functions, as well as their properties and graphs are discussed in detail. The concepts of limits and derivatives are introduced. Other topics addressed include sequences/series and counting/probability. Students will learn to use the graphing calculator to analyze functions. This accelerated course will require that a significant amount of work be accomplished outside the confines of the class period. **Students enrolled in this course may be eligible to earn college credits through our dual credit partnership with Stockton University.**

2340 HONORS CALCULUS I**Full Year****Grades 11-12****5 Credits****Prerequisite:** Advanced Trigonometry & Pre-Calculus

This is an introductory college-level course in differential and integral calculus. This course will introduce the students to many of the topics normally covered in a college level calculus course. This course will not prepare the student for the AP Calculus Exam. The advanced nature of the course requires the students to conscientiously complete their daily assignments which will require that a significant amount of work be accomplished outside the confines of the class period. **Students enrolled in this course may be eligible to earn college credits through our dual credit partnership with Stockton University.**

2351 AP CALCULUS I**Full Year****Grades 11-12****5 Credits****Prerequisites:** Honors Trigonometry with an 83 or better and teacher recommendation

This course is for the highly motivated math student. Expectations and workload in all AP courses are significant. Students successfully completing the first semester of the course with at least an 83 and receiving the recommendation of their teacher may take the AP Calculus AB Exam for advanced credit. The advanced nature of the course presupposes a high aptitude in, and enthusiasm for, abstract mathematics including a willingness to complete daily assignments. This accelerated course will require that a significant amount of work be accomplished outside the confines of the class period. **Students enrolled in this course may be eligible to earn college credits through our dual credit partnership with Stockton University. Students enrolled in this AP course will be required to take the AP exam administered in May (exam fees will be paid by the district).**

2360 AP CALCULUS II**Full Year****Grade 12****5 Credits****Prerequisites:** AP Calculus I and teacher recommendation

This course will review the topics covered in AP Calculus I and then follow the scope and sequence of the topics as outlined by the College Board for the Advanced Placement Calculus BC course. Students successfully completing the first semester of the course with at least an 83 will be recommended to take the AP Calculus BC Exam for advanced credit (with the expectation that the scores will be reported to the college they plan to attend). The advanced nature of the course presupposes a high aptitude in, and an enthusiasm for abstract mathematics, including a willingness to explore topics independently with minimal of teacher assistance. The expectations and workload in an AP course are high. This accelerated course will require that a significant amount of work be accomplished outside the confines of the class period. **Students enrolled in this course may be eligible to earn college credits through our dual credit partnership with Stockton University. Students enrolled in this AP course will be required to take the AP exam administered in May (exam fees will be paid by the district).**

- 2370 AP STATISTICS** **Full Year** **Grades 10-12** **5 Credits**
Prerequisites: Honors Geometry and/or Honors Algebra II and teacher recommendation
This is a college-level course in statistics. Topics covered in the course include exploring data, planning a study, anticipating patterns, and statistical inference. Due to the nature of the course, it is highly recommended that students have their own graphing calculator. The expectations and workload in an AP course are high. This accelerated course will require that a significant amount of work be accomplished outside the confines of the class period. **Students enrolled in this AP course will be required to take the AP exam administered in May (exam fees will be paid by the district).**
- 2420 INTRODUCTION TO COMPUTER PROGRAMMING** **Full Year** **Grades 10-12** **5 credits**
Prerequisite: Concurrently taking or completed Algebra II
Introduction to Computer Programming provides students with the knowledge and skills necessary to construct computer programs in one or more languages. Students will first learn the basic components of a computer and how it executes code to display what we use every day. The course introduces students to computer science with fundamental topics that include problem solving, design strategies and methodologies, organization of data (data structures), approaches to processing data (algorithms), analysis of potential solutions, and the ethical and social implications of computing. Students will write code using logical operators and other more detailed functions. These techniques represent proven approaches for developing solutions that can scale up from small, simple problems to large, complex problems.
- 2425 AP COMPUTER SCIENCE PRINCIPLES** **Full Year** **Grades 9-12** **5 Credits**
Prerequisites: Concurrently taking or completed Geometry
This course is for students to learn the content of PSI AP Computer Science Principles and be prepared to take the AP Exam. It focuses on the fundamental understanding of computers, networking, data conversion and use, and life in a digital world. Programming skills will be deepened throughout this course. Topics that students will be introduced to include an introduction to programming, operators and logic, algorithms and control structures, lists, functions and procedures, the global impact of computing, bits and bytes, data and privacy, graphics and images, and the Internet and networking. **Students enrolled in this AP course will be required to take the AP exam administered in May (exam fees will be paid by the district).**
- 2430 AP COMPUTER SCIENCE A** **Full Year** **Grades 10-12** **5 credits**
Prerequisite: Concurrently taking or completed Algebra II and AP Computer Science Principles
AP Computer Science A is equivalent to a first-semester, college level course in computer science. The course introduces students to computer science with fundamental topics that include problem solving, design strategies and methodologies, organization of data (data structures), approaches to processing data (algorithms), analysis of potential solutions, and the ethical and social implications of computing. The course emphasizes both object-oriented and imperative problem solving and design using Java language. These techniques represent proven approaches for developing solutions that can scale up from small, simple problems to large, complex problems. The AP Computer Science A course curriculum is compatible with many CS1 courses in colleges and universities. **Students enrolled in this AP course will be required to take the AP exam administered in May (exam fees will be paid by the district).**
- 2520 PRACTICAL MATH & PERSONAL FINANCE** **Full Year** **Grades 10-12** **5 Credits**
Prerequisite: Concurrently taking or completed Intermediate Algebra or Algebra II
This full year course will focus on real-world applications of mathematics in personal financial decision making. Through a project-based approach students will gain a general understanding of the key aspects of money management. Students will apply concepts learned in previous math courses to topics including personal income, taxes, checking and savings accounts, credit, loans and payments, car leasing and purchasing, home mortgages, investments, insurance, retirement planning and business. This course will provide a foundational understanding for making informed financial decisions. This course will fulfill the financial literacy graduation requirement.

PERFORMING ARTS

Dr. Richard Falletta, Supervisor

0610	SELECT SYMPHONIC BAND	Full Year	Grades 9-12	5 Credits
	Prerequisites: Director's recommendation and audition			
	Symphonic Band is the first level of a two tiered band program. Continued emphasis will be on the development of individual musical skills. Students are expected to complete small or individual lessons/sectionals with faculty throughout the school year. Advanced literature will be demonstrated through public performance and students will be required to perform at three evening concerts, the New Jersey Gala performances and high school graduation (band members in grades 9–11).			
0620	WIND ENSEMBLE	Full Year	Grades 9-10	5 Credits
	Prerequisites: Director's recommendation and audition			
	This ensemble is composed of the most outstanding instrumental students in the band program. Students will engage in an in-depth study of highly developed concert literature and advanced technical musical studies that will challenge each student to reach his/her full musical potential. Students are expected to complete small or individual lessons with faculty throughout the school year. All students are required to perform at three evening concerts, Region festival, the New Jersey Gala, and the Memorial Day Ceremony. Students are required to perform at graduation. This course will be scheduled along with the Honors Wind Ensemble. Students are required to audition every year.			
0621	HONORS WIND ENSEMBLE	Full Year	Grades 11-12	5 Credits
	Prerequisites: Director's recommendation and audition			
	This ensemble is composed of the most outstanding instrumental students in the band program. Students will engage in an in-depth study of highly developed concert literature and advanced technical musical studies that will challenge each student to reach his/her full musical potential. Students are expected to complete small or individual lessons with faculty throughout the school year. All students are required to perform at three evening concerts, Region festival, the New Jersey Gala, and the Memorial Day Ceremony. Students in grade 11 are required to perform at graduation. Successful completion of this class entitles students to receive honors credit with the completion of additional assignments and/or assessments as determined by the director. Students are required to audition every year.			
0640	STRING ORCHESTRA	Full Year	Grades 9-12	5 Credits
	Prerequisites: Director's recommendation and audition			
	This course will provide a well-rounded experience in ensemble performance in the string orchestra setting. Students must have experience in playing a stringed instrument (Violin, Viola, Cello, or Upright Bass) or make prior arrangements for individual lessons before joining the course. Music reading and public performance will be emphasized. Students will be required to perform in two evening concerts during the school year.			
0645	SELECT STRING ORCHESTRA	Full Year	Grades 9-10	5 Credits
	Prerequisites: Director's recommendation and audition			
	This ensemble is composed of the most outstanding students in the strings program. Students will play music at a significantly more challenging level than in String Orchestra and take part in community performances throughout the year. Auditions will be held in the spring for the following fall and will include the performance of a solo, scales and sight-reading material. Students will be required to perform in two evening concerts during the school year. This course will be scheduled along with the Honors Select String Orchestra.			

- | | | | | |
|-------------|---|------------------|---------------------|------------------|
| 0655 | HONORS SELECT STRING ORCHESTRA | Full Year | Grades 11-12 | 5 Credits |
| | Prerequisites: Director's recommendation and audition | | | |
| | This ensemble is composed of the most outstanding students in the strings program. Students will play music at a significantly more challenging level than in String Orchestra and take part in community performances throughout the year. Auditions will be held in the spring for the following fall and will include the performance of a solo, scales and sight-reading material. Students will be required to perform in two evening concerts during the school year. Successful completion of this class entitles students to receive honors credit with the completion of additional assignments and/or assessments as determined by the director. | | | |
| | | | | |
| 0680 | CONCERT CHOIR | Full Year | Grades 9-12 | 5 Credits |
| | Prerequisites: Director's recommendation and audition | | | |
| | Concert Choir is an auditioned choir. Auditions are held from January to June of the previous school year. Students participating in Concert Choir have an understanding of the singing voice and the ability to read music and perform a variety of musical pieces. Fall repertoire includes more traditional selections to be performed during the month of December. Spring repertoire includes more "show choir" selections to be performed at various festivals, competitions and school concerts. | | | |
| | | | | |
| 0682 | SELECT CHOIR | Full Year | Grade 10 | 5 Credits |
| | Prerequisites: Director's recommendation and audition | | | |
| | Select Choir is an auditioned choir. Auditions are held from January to June of the previous school year. Auditioned material is similar to the material required by the All-Shore Chorus. Advanced vocal students participating have an opportunity to learn and perform a variety of music that will further their musical, vocal and performance skills. Emphasis is placed on a variety of musical components, such as sight-reading, rhythmic and melodic articulation, expressive interpretation, and performance practices. Students will be encouraged to improve their listening and vocal skills through a variety of individual and group performances. This course will require student participation beyond regular school hours due to the performance schedule. These performances may include in-school shows, community programs, recitals, and vocal festivals. This course will be scheduled along with the Honors Select Choir. | | | |
| | | | | |
| 0683 | HONORS SELECT CHOIR | Full Year | Grades 11-12 | 5 Credits |
| | Prerequisites: Director's recommendation and audition | | | |
| | Honors Select Choir is an auditioned choir. Auditions are held from January to June of the previous school year. Auditioned material is similar to the material required by the All-Shore Chorus. Advanced vocal students participating have an opportunity to learn and perform a variety of music that will further their musical, vocal and performance skills. Emphasis is placed on a variety of musical components, such as sight-reading, rhythmic and melodic articulation, expressive interpretation, and performance practices. Students will be encouraged to improve their listening and vocal skills through a variety of individual and group performances. This course will require student participation beyond regular school hours due to the performance schedule. These performances may include in-school shows, community programs, recitals, and vocal festivals. Successful completion of this class entitles the students to receive honors credit with the completion of additional assignments and/or assessments as determined by the director. | | | |
| | | | | |
| 0629 | BEGINNING GUITAR | Full Year | Grades 11-12 | 5 Credits |
| | Beginning Guitar is an introductory course for the high school student who has an interest in music, but little or no experience playing an instrument. Instruments will be provided if needed. In addition to learning different styles and techniques of guitar playing, students will learn basic music theory and note reading, which are essential to the mastery of any instrument. Since this is a performance class, public concerts and recitals are part of the curriculum. | | | |

- | | | | | |
|-------------|--|------------------|---------------------|------------------|
| 0692 | MUSIC THEORY | Full Year | Grades 10-12 | 5 Credits |
| | Prerequisites: A minimum of one year of formal study of instrument/voice and teacher recommendation | | | |
| | Music Theory is designed for students to gain a deeper understanding of how and why music is constructed. This course will emphasize all building blocks of written music as well as the development of tonal memory. Students will gain practical knowledge of an array of music and will demonstrate skills through dictation. This course will include, but not be limited to: pitch, rhythm, intervals, consonance and dissonance, scales, modes, melody, harmony, counterpoint, rhythm, meter, form, analysis, ear training, solfege singing, musical history, various composers, musical repertoire and basic piano skills. | | | |
| | | | | |
| 0693 | AP MUSIC THEORY | Full Year | Grades 10-12 | 5 Credits |
| | Prerequisite: Music Theory OR students may qualify for this course by passing a skills-based competency test | | | |
| | This course is designed for students who have successfully completed Music Theory and plan to major or minor in music education and/or performance at college. Music Theory is a course structured to help students gain a deeper understanding of how and why music is constructed. This course will emphasize the development of aural, analytical, and compositional skills. It will follow a course of study designed to prepare students for the AP Music Theory Exam offered by the College Board. The expectations and workload in this honors course are above average and will require extensive student participation beyond regular school hours. Students enrolled in this AP course will be required to take the AP exam administered in May (exam fees will be paid by the district). | | | |
| | | | | |
| 0660 | THEATRE ARTS | Full Year | Grades 9-12 | 5 Credits |
| | This comprehensive course focuses on the refinement of an actor's skill. Units in musical theatre, theatre history, technical theatre, costume design, script analysis, direction, speech, and vocal production will ensure versatility for the aspiring performer. Students will be expected to perform after school in two showcases per year. Students enrolled in this course may be eligible to earn college credits through our dual credit partnership with Stockton University. | | | |
| | | | | |
| 0661 | ADVANCED THEATRE ARTS | Full Year | Grades 10-12 | 5 Credits |
| | Prerequisites: Theatre Arts, student audition and teacher recommendation | | | |
| | This comprehensive performance-based course focuses on the continued refinement of an actor's skill. Students must audition to be placed in this course. Units in speech for the stage, acting methods, musical theatre performance, scene work, and history will ensure versatility for the aspiring performer. Students will be expected to perform in two showcases per year. Students enrolled in this course may be eligible to earn college credits through our dual credit partnership with Stockton University. | | | |
| | | | | |
| 0665 | THEATRE DANCE | Full Year | Grades 9-12 | 5 Credits |
| | This course is designed for students looking to strengthen their knowledge and technique in all areas of dance. No prerequisites or prior dance study is required. In this course, students will acquire an understanding of ballet technique, concepts, and principles. Using this foundation, students will continue their studies to learn about jazz, modern, and tap dance. This course will also include study in dance history, performance, and choreography. Students will be expected to perform after school in two showcases per year. Proper shoes and clothing attire will be necessary to participate in this class each day. | | | |
| | | | | |
| 0666 | ADVANCED THEATRE DANCE | Full Year | Grades 10-12 | 5 Credits |
| | Prerequisites: Theatre Dance, student audition and teacher recommendation | | | |
| | This course is designed for students looking to deepen their understanding of technique in all areas of dance. Students must audition to be placed in this course. In this course, students will acquire a deeper understanding of ballet technique, concepts, and principles. Using this foundation, students will continue their studies to learn about jazz, modern, and tap dance. This course will also include study in dance history, performance, and choreography. Students will be expected to perform in two showcases per year. Proper shoes and clothing attire will be necessary to participate in this class each day. | | | |

PHYSICAL EDUCATION, HEALTH EDUCATION AND DRIVER EDUCATION

Mr. Joseph DiPietro, Supervisor

Per New Jersey State law, a course in Physical Education is required of all students for each year they are enrolled in high school. Progression in skill level and knowledge of physical activities will be emphasized beginning with the freshman year and continuing through the senior year. A selection of team sports, individual sports, and dance are offered. A major focus of all classes will be physical fitness for a healthy life. Safety is of prime concern in all units.

The following activities may be offered:

Aerobics	Field Hockey	Orienteering	Team Handball
Archery	Fitness	Project Adventure II	Tennis
Badminton	Flag Football	Power Walking	Track & Field
Basketball	Games	Racquet Sports	Tumbling
Bicycling	Golf	Soccer	Ultimate Frisbee
Dance	Gymnastics	Softball	Volleyball
Fencing	Lacrosse	Table Tennis	Weight Training

One quarter of Physical Education in Grade 9 will consist of the Project Adventure Experience.

0101	PHYSICAL EDUCATION 9 / HEALTH 9	Grade 9	5 Credits
0201	PHYSICAL EDUCATION 10 / DRIVER EDUCATION	Grade 10	5 Credits
0301	PHYSICAL EDUCATION 11 / HEALTH 11	Grade 11	5 Credits
0401	PHYSICAL EDUCATION 12 / HEALTH 12	Grade 12	5 Credits

All Health Education courses are one marking period in length and are offered alternately with Physical Education in the schedules of students in grades 9 through 12. These courses are designed to provide both specific and general knowledge so those students may develop desirable health practices.

- | | | | |
|-------------|--|-----------------|--|
| 0150 | HEALTH 9
This course focuses on the impact of decision making on health. Students will learn about interpersonal skills in developing and maintaining relationships; male and female reproductive systems, sexually transmitted diseases, family planning, birth control methods and their effectiveness with an emphasis on abstinence; and alcohol and drug education. This course focuses on the individual as they strive to understand themselves and others. | Grade 9 | |
| 0250 | DRIVER EDUCATION
Driver Education, a classroom-based course, culminates in the administration of the New Jersey Motor Vehicle Commission's knowledge examination. Passage of this examination meets the requirement of eligibility for the driver's permit. This course focuses on the development of an attitude of responsibility concerning the driving of vehicles. A driver simulator is used to imitate driving conditions and assist in the decision-making process necessary to become a defensive driver. | Grade 10 | |
| 0350 | HEALTH 11
In this course, students will study wellness and fitness; nutrition; drugs and alcohol; and communicable and non-communicable diseases. An emphasis will be placed on the development of personal responsibility and decision making. Students will explore emotions, stress, conflicts, and community resources that support a healthy lifestyle. | Grade 11 | |
| 0450 | HEALTH 12
The complex society we live in presents many challenges for young adults. This course provides students with the opportunity to explore chronic and life-threatening diseases; analyze family health history; learn emergency first aid skills; analyze factors that can influence decisions about pregnancy and parenting; and explore the characteristics of a healthy relationship. | Grade 12 | |

AIR FORCE JUNIOR ROTC

Mr. Joseph DiPietro, Supervisor

Air Force Junior ROTC (AFJROTC) is a program for students in grades 9-12 who are looking for something different and challenging. The mission of the AFJROTC program is to develop citizens of character dedicated to serving their nation and community. Students will learn to listen and think critically, how to prepare for leadership, how to build personal awareness and self-discipline, key elements of building and leading effective teams, key behaviors for becoming a competent leader, and the importance of charting a career path. Enrollment in AFJROTC incurs **NO MILITARY OBLIGATION**; however, scholarship opportunities and promotion benefits are available to experienced AFJROTC cadets should the student decide to pursue a military career after graduating from high school.

The AFJROTC curriculum includes three components: Aerospace Science (AS), Leadership Education (LE), and Wellness. Aerospace Science introduces students to the principles of flight and navigation, the history of aviation, development of air power, contemporary aviation, human requirements of flight, cultural and global awareness, geography, the space environment, space programs, space technology, rocketry, propulsion, the aerospace industry, and survival skills. The Leadership Education component emphasizes discipline, responsibility, leadership, followership, citizenship, military customs and courtesies, cadet corps activities, study habits, time management, communication skills, career opportunities, life skills, financial literacy, management skills, and drill. Drill is taught throughout the school year as part of the leadership component in conjunction with formal AS and LE academic lessons. Wellness is an official and integral part of the AFJROTC program (inclusive of all athletic abilities). The objective of the wellness program is to motivate cadets to lead healthy, active lifestyles beyond program requirements and into their adult lives. Cadets will be given the opportunity to put into practice the wellness concepts that are taught in class. Wellness includes exercise and physical activity.

Co-curricular and extra-curricular activities reinforce classroom leadership instruction and encourage community service. Cadets organize and participate in Color Guard, Drill Team, ceremonies, parades and athletic events in the school and community. Students have the opportunity to attend field trips to aerospace museums and military bases and participate in hands on learning experiences to include RC model aircraft, model rockets, quadcopters, and flight simulators.

0810	JROTC I This is the first year Junior ROTC course.	Full Year	Grades 9-12	5 Credits
0820	JROTC II Prerequisite: Teacher recommendation This is the second year Junior ROTC course.	Full Year	Grades 10-12	5 Credits
0830	JROTC III Prerequisite: Teacher recommendation This is the third year Junior ROTC course.	Full Year	Grades 11-12	5 Credits
0840	JROTC IV Prerequisite: Teacher recommendation This is the fourth year Junior ROTC course.	Full Year	Grade 12	5 Credits
0850	HONORS AVIATION GROUND SCHOOL Prerequisites: JROTC I and teacher recommendation This course is the foundation for students interested in receiving a Federal Aviation Administration (FAA) private or remote pilot's license. The material covered is an advanced, more in-depth study of aerospace topics. The intent of the program is to provide cadets an academically challenging course for top achievers in the AFJROTC program. Entry into ground school can be earned by high achievement in other AFJROTC courses and involvement in the cadet corps. Course goal is for students to be prepared to take and pass the FAA written examination per requirements of the Federal Aviation Regulations. Students may also concurrently enroll in JROTC II, III or IV.	Full Year	Grades 11-12	5 Credits

JROTC - OPTIONAL SUMMER COURSE

0845	Cadet Leadership Course (CLC)	120 Hours	Grades 10-12	2.5 Credits
Prerequisite: JROTC I				
An eight-day summer course for students entering their second through fourth year in AFJROTC. Conducted every June at Joint Base McGuire-Dix-Lakehurst, NJ, it is a compilation of academics, physical fitness, drill and ceremonies, and hands-on problem solving. Cadets reside in Ft. Dix dormitories and eat in the dining hall. During the course, cadets fine-tune their leadership and teamwork skills. Cadets are supervised and chaperoned by qualified AFJROTC instructors and volunteers. CLC is a selective and voluntary program.				

See instructor for registration details. Students will only be permitted to take this course once for credit.

SCIENCE

Mrs. Melissa Karas, Supervisor

3019	GEOPHYSICAL SCIENCE	Full Year	Grade 9	5 Credits
This laboratory/inquiry-based course will provide students with an introduction to high school science. This is the first in a series of college prep courses that will satisfy requirements for entry into post-secondary education. This course provides a solid foundation of scientific principles that will be applicable to all future science courses. Topics covered include physical science, earth science, geology, and ecology. The development of laboratory techniques and problem-solving skills are stressed.				
3018	ADVANCED GEOPHYSICAL SCIENCE	Full Year	Grade 9	5 Credits
Prerequisite: Must be taken concurrently with Advanced Algebra I				
This is an accelerated laboratory/inquiry-based science course that provides a solid foundation of scientific principles that will be applicable to all future science courses. Topics covered include physical science, earth science, geology, and ecology. The development of laboratory techniques and problem-solving skills are stressed.				
3100	BIOLOGY	Full Year	Grade 10	6 Credits
Prerequisites: Geophysical Science and Algebra I				
This college prep life science course uses an inquiry-based learning approach that connects biology and the student with their community. The course will encompass the following topics: matter and energy, ecosystems, biodiversity and human impact on the biosphere, inheritance, human biology, and evolutionary principles. Hands-on activities and lab investigations are an integral part of this course.				
3110	ADVANCED BIOLOGY	Full Year	Grade 9-10	6 Credits
Prerequisite: Must be taken concurrently with Advanced Geometry				
This college prep course will cover the origin, structure, functions, and distribution of organisms. Classroom and laboratory activities will provide an opportunity to acquire an understanding of our environment, problem-solving techniques, and laboratory skills and technology integration. The areas of biochemistry, cells, genetics, environment, and human body systems will be emphasized.				
3120	HONORS BIOLOGY	Full Year	Grade 9	6 Credits
Prerequisite: Must be taken concurrently with Honors Geometry				
This course is designed for students who have a genuine interest in the biological sciences. In biology students investigate the origin, structure, function, and distribution of living organisms. A variety of inquiry-based classroom activities will provide students with opportunities to acquire an understanding of biological concepts, problem-solving techniques, and laboratory skills. The expectations and workload in an honors course are high. This accelerated course will require that a significant amount of work be accomplished outside the confines of the class period.				
3200	CHEMISTRY	Full Year	Grades 11	6 Credits
Prerequisites: Biology and Algebra I				
This is a laboratory/inquiry-based college prep course that combines an emphasis on the role chemistry plays in everyone's life with basic chemical knowledge to create a perfect solution. This popular alternative to the traditional chemistry class uses intriguing activities to make students aware of their potential contributions to chemistry-related issues in their community. Students learn and use chemical facts and concepts only when they need them to understand the societal issues being addressed. As a result, their interest in chemistry grows as they discover its real-world applications.				

3210	ADVANCED CHEMISTRY Prerequisites: Advanced Biology and Advanced Algebra I This inquiry-based college prep course will cover atomic structure, periodic law, chemical bonding, chemical composition, gas laws, the solution process, and acids and bases. The scientific method and problem-solving skills are being stressed. A major part of the course is laboratory work designed to strengthen theoretical concepts.	Full Year	Grade 11	6 Credits
3220	HONORS CHEMISTRY Prerequisites: Honors Biology and Honors Algebra II are strongly recommended Honors Chemistry is a demanding college preparatory course geared for students who have demonstrated an aptitude for scientific study and mathematics. Problem-solving skills and critical thinking are being emphasized. A very strong foundation in algebra is required for this course. A major part of the course involves laboratory work. Advanced topics such as oxidation and reduction, equilibrium, and reaction kinetics are studied. The expectations and workload in an honors course are high. This accelerated course will require that a significant amount of work be accomplished outside the confines of the class period.	Full Year	Grade 10-11	6 Credits
3300	PHYSICS Prerequisites: Chemistry & Algebra I and concurrently enrolled in or completed Algebra II Did you ever wonder how amusement park rides are designed and how they work? Ever wonder what makes them so thrilling? Through numerous demonstrations, experiments, and class discussions, students will develop an understanding of the forces that affect their lives. The physics of sound, light, motion, electricity, magnetism, and energy will be explored. This laboratory/inquiry-based science course emphasizes problem-solving techniques, logical thinking, and the development of laboratory skills, and is geared toward the college-bound student.	Full Year	Grades 11-12	6 Credits
3310	ADVANCED PHYSICS Prerequisites: Advanced Chemistry and Advanced Algebra II are strongly recommended This laboratory/inquiry-based science course emphasizes problem solving techniques, logical thinking, and the development of laboratory skills, and is geared toward the college-bound student. Through numerous demonstrations, experiments, and class discussions, students will develop an understanding of the forces that affect their lives. The physics of sound, light, motion, electricity, magnetism, and energy will be explored.	Full Year	Grades 11-12	6 Credits
3140	AP BIOLOGY Prerequisites: Honors Chemistry and Honors Biology or Advanced Chemistry and Advanced Biology with a grade of 92 or better and teacher recommendation The Advanced Placement Biology course is designed to be the equivalent of a college introductory biology course taken by biology majors during their first year. It provides students the opportunity to prepare for the AP Exam and earn advanced or college credit. The course follows the curriculum recommended by the College Board and covered in most college introductory courses. Students will cover topics including molecules and cells, cell energetics, heredity, molecular genetics, evolution, diversity of organisms, plant and animal physiology, and morphology and ecology. There is a substantial laboratory component to the course offering students the opportunity to become familiar with a variety of advanced laboratory skills and practices. The expectations and workload in an AP course are high. This accelerated course will require that a significant amount of work be accomplished outside the confines of the class period. Students enrolled in this AP course will be required to take the AP exam administered in May (exam fees will be paid by the district).	Full Year	Grades 11-12	6 Credits
3230	AP CHEMISTRY Prerequisites: Honors Chemistry or Advanced Chemistry with teacher recommendation and Algebra II with a grade of 92 or better This course will go into more detail about topics covered in Honors Chemistry. Topics will include thermochemistry, chemical kinetics, and organic chemistry. Laboratory work will include learning to use a spectrophotometer and the completion of other college-level labs. This course is recommended for any student who has an interest in pursuing a career in biology, chemistry, the medical professions, or engineering. A lab portfolio is one of the course requirements. The expectations and workload in an AP course are high. This accelerated course will require that a significant amount of work be accomplished outside the confines of the class period. Students enrolled in this AP course will be required to take the AP exam administered in May (exam fees will be paid by the district).	Full Year	Grades 11-12	6 Credits

3320	AP PHYSICS 1: ALGEBRA-BASED Prerequisites: Honors Chemistry and Honors Algebra II AP Physics 1 is the equivalent to a first-semester college course in algebra-based physics. The course covers Newtonian mechanics (including rotational dynamics and angular momentum); work, energy, and power; mechanical waves and sound. It will also introduce electric circuits. This course includes basic use of trigonometric functions and focuses on a series of learning objectives that clarify the knowledge and skills students should demonstrate to qualify for college credit and placement. Each learning objective combines physics content with one or more of seven foundational science practices. The expectations and workload in an AP course are high. This accelerated laboratory/inquiry-based course will require that a significant amount of work be accomplished outside the confines of the class period. Students enrolled in this AP course will be required to take the AP exam administered in May (exam fees will be paid by the district).	Full Year	Grades 11-12	6 Credits
3325	AP PHYSICS 2: ALGEBRA-BASED Prerequisite: AP Physics 1 AP Physics 2 is the equivalent of a second-semester college course in algebra-based physics. Students cultivate their understanding of physics through inquiry-based investigations as they explore these topics: fluids; thermodynamics; electrical force, field, and potential; electric circuits; magnetism and electromagnetic induction; geometric and physical optics; and quantum, atomic, and nuclear physics. This course includes basic use of trigonometric functions and focuses on a series of learning objectives that clarify the knowledge and skills students should demonstrate to qualify for college credit and placement. Each learning objective combines physics content with one or more of seven foundational science practices. The expectations and workload in an AP course are high. This accelerated laboratory/inquiry-based course will require that a significant amount of work be accomplished outside the confines of the class period. Students enrolled in this AP course will be required to take the AP exam administered in May (exam fees will be paid by the district).	Full Year	Grades 11-12	5 Credits
3016	ENVIRONMENTAL SCIENCE Prerequisites: Geophysical Science and Biology This laboratory/inquiry-based course is designed for students who do not necessarily plan to pursue further studies in the field of science but show a strong interest in the environmental and marine sciences. Local and global ecosystems and issues surrounding soil, water, air, and energy conservation will be explored. The course will investigate basic ecological principles and introduce problem-solving techniques through fieldwork and environmental data collection. The course also dives into the history of ocean studies, the physics and chemistry environment, the flora and fauna, and the impact of human interactions with the world of the oceans.	Full Year	Grades 11-12	5 Credits
3424	MARINE BIOLOGY Prerequisites: Advanced Biology and Advanced Chemistry This laboratory/inquiry-based college prep course is designed for students who show a strong interest in the marine sciences. This academic elective course focuses on local ecosystems and marine environments, with an emphasis on the fauna and abiotic factors of the marine environment. Through inquiry-based problem-solving students will investigate issues such as overfishing, over-nitrification of estuaries, and changes in primary productivity. Students will gather information through remote sensing, data collection, dissections, and simulations. The course also dives into ocean navigation and GPS technology. Students enrolled in this course may be eligible to earn college credits through our dual credit partnership with Ocean County College.	Full Year	Grades 11-12	5 Credits
3426	ANATOMY/PHYSIOLOGY Prerequisites: Advanced Biology and Advanced Chemistry or Biology and Chemistry with a grade of 92 or higher and teacher recommendation This rigorous, laboratory/inquiry-based course is recommended for any student planning to enter the medical, health, or sports medicine occupations or who has a general interest in their own personal fitness. This course will investigate the human body from a cellular level up through the various organ systems. Students enrolled in this course may be eligible to earn college credits through our dual credit partnership with Stockton University.	Full Year	Grades 11-12	5 Credits

- 3425 SPORTS MEDICINE** **Full Year** **Grades 11-12** **5 Credits**
Prerequisites: Advanced Biology and Advanced Chemistry or Biology and Chemistry with a grade of 92 or higher and teacher recommendation
This course cannot be taken with Anatomy/Physiology due to curricular overlap.
 Sports Medicine offers students an introduction to the broad field of sports medicine. In this course, students learn about various medical careers with an emphasis on athletic training. Basic anatomy and physiology will be covered with a primary focus on areas most commonly affected by athletic injuries. Students learn techniques for preventing sport-related injuries; recognition of specific injuries and conditions; and care and rehabilitation of these injuries. Lessons combine observations and research, hands-on experiences, and scenario-based skill practice to maximize student learning.
- 3427 ENGINEERING** **Full Year** **Grades 9-12** **5 Credits**
 Through hands-on activities and research projects, this course explores five main engineering fields and numerous sub-fields. Students will work with Arduino microprocessors combining software and circuits that light up and make sounds. This course will investigate bridge strength, history, symmetry, and trusses. Students will create tessellations and evaluate material strength and performance for packaging. Students will learn how to measure wind speed, calculate rpm, and determine optimum pitch angles to create a wind farm producing a specified voltage. Students are required to keep a lab book and participate in the design and development of group projects.
- 3150 BARRENS TO BEACHES: LOCAL NEW JERSEY ECOLOGY & SUSTAINABILITY** **Full Year** **Grade 12** **6 Credits**
Prerequisites: Geophysical Science and Biology
 This field study/inquiry-based course is designed for students who show a strong interest in the Pine Barrens and coastal estuary ecosystems. This course will explore the natural history of the area, its flora and fauna, the important link between soil and water, along with human impact and sustainability. Basic ecological principles along with the opportunity to gain hands-on fieldwork experience exploring local community habitats and environments from the Pine Barrens to the beach. Classroom and laboratory activities will provide an opportunity to acquire an understanding of our environment, problem-solving techniques, and laboratory skills.

SOCIAL STUDIES

Dr. Richard Falletta, Supervisor

- | | | | | |
|---|---------------------------------|------------------|-----------------|------------------|
| 4110 | WORLD HISTORY | Full Year | Grade 9 | 5 Credits |
| <p>World History is the story of human strivings and aspirations in five spheres of activity: social, scientific/technological, economic, religious/philosophical, and political. These five spheres of human activity are interwoven in the real lives of individuals and societies. Students will explore the many and diverse societies that constitute humankind, the long road they have traveled from their earliest beginnings, and the continuing significance of their interactions throughout history and into the modern era. Students are also introduced to career and vocational education.</p> | | | | |
| 4120 | ADVANCED WORLD HISTORY | Full Year | Grade 9 | 5 Credits |
| <p>This course is designed for students who can handle a more rigorous program. Students apply communication and research skills in investigating the cultural, social, spiritual, economic, and political contributions of past civilizations and societies. Similarities and differences between our way of life and that of past generations are explored.</p> | | | | |
| 4130 | HONORS WORLD HISTORY | Full Year | Grade 9 | 5 Credits |
| <p>Honors World History is designed for students who are capable of excelling, academically, both in the classroom and on standardized tests such as Advanced Placement Exams. While studying the story of human history, the students will display an unusually strong ability to express themselves verbally and in written form. Students in this course will possess a love for the study of historical events and cultures. A summer reading assignment is a requirement of this course.</p> | | | | |
| 4140 | AP WORLD HISTORY: MODERN | Full Year | Grades 9 | 5 Credits |
| <p>In this course students investigate significant events, individuals, developments, and processes from 1200 to the present. Students develop and use the same skills, practices, and methods employed by historians: analyzing primary and secondary sources; developing historical arguments; making historical connections; and utilizing reasoning about comparison, causation, and continuity and change over time. The course provides six themes that students explore throughout the course in order to make connections among historical developments in different times and places: humans and the environment, cultural developments and interactions, governance, economic systems, social interactions and organization, and technology and innovation. Students enrolled in this AP course will be required to take the AP exam administered in May (exam fees will be paid by the district).</p> | | | | |
| 4210 | U.S. HISTORY I | Full Year | Grade 10 | 5 Credits |
| <p>United States History I is a survey course in American history that begins with the Federalist Era and chronologically develops the growth of our nation through the year 1941. Emphasis in the course is on the political, economic and social aspects of the history of our country. Students are exposed to a variety of skills and techniques from note taking to critical thinking skills and creative thought processes. Students write a series of essays and position papers in order to develop research and expository writing skills.</p> | | | | |
| 4220 | ADVANCED U.S. HISTORY I | Full Year | Grade 10 | 5 Credits |
| <p>Advanced United States History I is a survey course in American history that begins with the Federalist Era and chronologically develops the growth of our nation through the year 1941. Emphasis in the course is on the political, economic, and social aspects of the history of our country. Students are exposed to a variety of skills and techniques including note taking, critical thinking, analysis of source documents, and the writing of position and reaction papers. The requirements for reading comprehension, oral expression and writing skills in this course are designed to prepare students for the academic rigor of a college program.</p> | | | | |

4230	HONORS U.S. HISTORY I	Full Year	Grade 10	5 Credits
Honors United States History I is the first half of a two-year college-level course in American history that begins with the exploration of settlement and chronologically develops the growth of our nation through 1877. Emphasis in the course is on the political, economic, and social, cultural, and intellectual aspects of the history of our country. Students are exposed to a variety of skills and techniques from note taking to critical thinking and creative thought processes. Students will write and research extensively. The expectations and workload in an honors course are high. This accelerated course will require that a significant amount of work be accomplished outside the confines of the class period. A summer reading assignment is a requirement of this course.				
4310	U.S. HISTORY II	Full Year	Grade 11	5 Credits
United States History II is first a survey in American history that begins with 1942, the start of the Cold War, and chronologically develops the political, economic and social growth of our nation to the end of the Cold War and the present day. In addition, emphasis is placed on a thorough understanding of the Constitution of the United States and the makeup and functions of our government. The role of the government in our daily lives is given careful attention and students address contemporary issues through the processes of research, essay writing, critical thinking skills and creative problem solving.				
4320	ADVANCED U.S. HISTORY II	Full Year	Grade 11	5 Credits
Prerequisites: Advanced U.S. History I and/or teacher recommendation Advanced United States History II is a survey in American history that begins with the prelude to World War II era and chronologically develops the political, economic, and social growth of our nation through the end of the Cold War and the present day. In addition, emphasis is placed on a thorough understanding of the Constitution of the United States and the makeup and functions of our government. The role of the government in our daily lives is given careful attention and students address contemporary issues through the processes of research, essay writing, critical thinking skills and creative problem solving. Extensive use is made of source documents and other materials that will be intellectually challenging. The requirements for reading, oral expression and writing are designed to prepare students for the academic rigor of a college program.				
4330	AP U.S. HISTORY II	Full Year	Grade 11	5 Credits
Prerequisites: Honors U.S. History I and teacher/supervisor recommendation AP United States History II represents the second half of a college-level survey course in American history that intensely recaps the material presented in Honors U.S. History I, begins with post-reconstruction, and progresses through to the present day. Students are exposed to a variety of skills and techniques from note taking to critical thinking and creative thought processes. The course is designed for highly motivated students who are willing to challenge themselves. Students enrolled in this course have the opportunity to prepare for the Advanced Placement Exam and potentially earn college credit. Multiple summer reading assignments are required. Students enrolled in this course may be eligible to earn college credits through our dual credit partnership with Stockton University. Students enrolled in this AP course will be required to take the AP exam administered in May (exam fees will be paid by the district).				
4400	AP U.S. GOVERNMENT & POLITICS	Full Year	Grades 11-12	5 Credits
This course is designed to give students an analytical perspective on government and politics in the United States. The course involves the study of general concepts used to interpret United States politics and the analysis of specific case studies. Students will be exposed to a variety of skills and creative thought processes. The course is designed around simulation activities and extensive writing. Students enrolled in this course have the opportunity to prepare for the Advanced Placement Exam and potentially earn college credit. Multiple summer reading assignments are required. Students enrolled in this AP course will be required to take the AP exam administered in May (exam fees will be paid by the district).				

4410 AP COMPARATIVE GOVERNMENT & POLITICS**Full Year****Grade 12****5 Credits**

Drug Cartels. Covid-19. Nuclear Weapons. Brexit. Vladimir Putin. This college-level course will explore these topics and many others through a comparative examination of the nations of China, the United Kingdom, Iran, Russia, Mexico, and Nigeria. Designed for students interested in global politics and affairs, AP Comparative Government & Politics prepares students for advanced comparative political science coursework and to be active and informed about politics abroad. Students enrich their understanding of comparative government and politics through debate, discussion, and analysis as they explore important topics like power and authority, legitimacy and stability, and democratization. Students enrolled in this course have the opportunity to prepare for the Advanced Placement Exam and potentially earn college credit. **Students enrolled in this AP course will be required to take the AP exam administered in May (exam fees will be paid by the district).**

4420 AP EUROPEAN HISTORY**Full Year****Grades 11-12****5 credits**

This course is offered as an equivalent to an introductory European history college course. The study of European history since 1450 introduces students to cultural, economic, political, and social developments that played a fundamental role in shaping the world in which they live. In addition to providing a basic narrative of events and movements, the goals of AP European History are to develop (a) an understanding of some of the principal themes in modern European history, (b) an ability to analyze historical evidence and historical interpretation, and (c) an ability to express historical understanding in writing. The course is designed for highly motivated students who are willing to challenge themselves. Students enrolled in this course have the opportunity to prepare for the Advanced Placement Exam and potentially earn college credit. Multiple summer reading assignments are required. **Students enrolled in this AP course will be required to take the AP exam administered in May (exam fees will be paid by the district).**

4505 UNITED STATES LAW AND SOCIETY**Full Year****Grades 11-12****5 Credits**

United States Law and Society is an elective course that engages students in an exploration of United States law and its role in their lives. Students will analyze legal issues and problems and think critically to develop their own solutions and understand the legal process. Legal institutions, United States legal history, law and public policy, law and social structure and the law and ethics will be explored. Students will also actively participate in the process of law through a variety of exercises.

4516 CRITICAL ISSUES IN SOCIOLOGY AND HUMAN BEHAVIOR**Full Year****Grades 11-12****5 Credits**

Students taking this course will study the culture and values of various groups in society. Additionally, the students will receive a broad view of the field of psychology. Students will explore the individual with respect to their personality and their collective behavior. Such topics as human development and social systems as well as topics dealing with group and individual social problems will be discussed.

4517 AP PSYCHOLOGY**Full Year****Grade 11-12****5 Credits**

This course is offered as an equivalent to an introductory psychology college course. The course will introduce students to the scientific study of human behavior and mental processes. Areas of study include history, research methods and ethics, biological bases of behavior, sensation and perception, memory, altered states of consciousness, behavior analysis, cognitive processes and intelligence assessment, motivation, stress, personality, abnormal disorders and treatment, and social relationships. The expectations and workload in this course are demanding. This accelerated course will require that a significant amount of work be completed outside the class period. Students enrolled in this course have the opportunity to prepare for the Advanced Placement Exam and potentially earn college credit. **Students enrolled in this AP course will be required to take the AP exam administered in May (exam fees will be paid by the district).**

4518	ECONOMICS	Full Year	Grade 12	5 Credits
	Economics is an elective course that will provide students with an understanding of the principles and applications of microeconomics and macroeconomics. Microeconomics focuses on the behavior of individual households and firms within the larger economic system. Topics will include market competition, resource allocation, game theory and life skills pertaining to loans and investments. Macroeconomics focuses on the ideas that apply to the whole economic system. Students will explore concepts such as national income, inflation, labor markets and gain a comprehensive understanding of monetary and fiscal policy in the context of a global economy. The methods and tools of economic analysis will be introduced and applied to current economic policies. This course meets the State graduation requirement for financial literacy.			
4520	AP MICROECONOMICS	Full Year	Grade 12	5 Credits
	AP Microeconomics is a college-level course that introduces students to the principles of economics that apply to the functions of individual economic decision-makers. The course also develops students' familiarity with the operation of product and factor markets, distributions of income, market failure, and the role of government in promoting greater efficiency and equity in the economy. Students learn to use graphs, charts, and data to analyze, describe, and explain economic concepts. AP Microeconomics is equivalent to a one-semester introductory college course in economics. Students enrolled in this course have the opportunity to prepare for the Advanced Placement Exam and potentially earn college credit. This course meets the State graduation requirement for financial literacy. Students enrolled in this AP course will be required to take the AP exam administered in May (exam fees will be paid by the district).			

SPECIAL EDUCATION

Mr. Jonathan White, Supervisor

Individual education programs for students eligible for special education services take many forms and include both in-district and out-of-district programs. At Southern Regional High School, several special education programs are available: **In-Class Resource**, **Pull-out Resource Center**, and **Self-Contained Classes** as well as the **Compass** alternative program. These programs are designed to meet the needs of those students who, due to an educational disability, have difficulty in a traditional class setting. Alternative methods and materials are used in order to encourage success, both academically and socially.

In-Class Resource Program

The In-Class Resource Program provides students with the opportunity for a special education teacher to work cooperatively with a content area teacher in a mainstream class setting. The special education teacher assists with the development and delivery of the curriculum to all students within the class.

Resource Center

When the need is identified by the Individualized Education Plan (IEP) Team, a student may take an academic subject in a resource center where instruction is individualized, and class size is limited. Instruction provided follows the curriculum and New Jersey Student Learning Standards required in the corresponding mainstream course.

Subject	Course #	Course Description	Length	Grade	Credits

TELEVISION PRODUCTION

Mr. Joseph Medica, Supervisor

- | | | | | |
|-------------|---|------------------|---------------------|------------------|
| 1652 | INTRODUCTION TO TV PRODUCTION | Full Year | Grades 9-12 | 5 Credits |
| | This entry-level course teaches students the basic techniques of television production. Technical and communication skills are emphasized for successful broadcast performance related to the television industry. Students learn production equipment, the art of visual storytelling, multi-camera set ups, and the script writing process in order to foster an individual shooting style. | | | |
| 1662 | INTERMEDIATE TV PRODUCTION | Full Year | Grades 10-12 | 5 Credits |
| | Prerequisite: Introduction to TV Production
This second level course focuses on news and studio production. Students will concentrate on creating a news broadcast style, interviewing techniques, studio crew positions, three-point lighting systems, studio lighting, and writing for news. Students will work in a studio setting as well as live and recorded field productions. | | | |
| 1675 | SPORTS BROADCASTING | Full Year | Grades 10-12 | 5 Credits |
| | This course examines sports media as it pertains to broadcasting, the internet, and their impact on sports. Students learn the fundamental components of sports media such as writing game reports and feature stories for broadcast, active voice, internet streaming, shooting on location, anchoring and play-by-play, and production of the various forms of sports programs. This course offers students an opportunity to apply knowledge and skills to sports media activities utilizing the high school athletic program as the main media source. | | | |
| 1671 | NEWS BROADCASTING | Full Year | Grades 11-12 | 5 Credits |
| | Prerequisite: Intermediate TV Production
This course builds on the broadcast skills learned in the introduction and intermediate classes. News broadcasting will be practiced as the students work together under tight time constraints and production deadlines creating content for the daily announcements and for Channel 21. Students will focus on covering all aspects of news productions including writing for news, live studio reports, field report, guest interviews, and special features. Students enrolled in this course may be eligible to earn college credits through our dual credit partnership with Stockton University. | | | |
| 1672 | ADVANCED FILM MAKING | Full Year | Grades 11-12 | 5 Credits |
| | Prerequisite: Intermediate TV Production
This course builds on the film making skills learned in the introduction and intermediate classes. Advanced Film Making introduces new advanced techniques in directing, producing, casting, screenwriting, lighting techniques, sound recording, methods of color grading, Adobe After Effects, and new emerging technology. Students focus on mastering these film concepts through the creative storytelling process. | | | |

WORLD LANGUAGES

Mrs. Susan Craig, Supervisor

All students must earn five credits in world language to fulfill the State mandated graduation requirement. All of the following world language courses meet this requirement. It is highly recommended that students complete a world language course in ninth grade. Students may choose from French, German, Japanese, Latin, or Spanish. The fourth and fifth levels of the language program are honors courses. All courses will focus on developing communicative proficiency, as well as enhancing cultural knowledge and understanding.

5110	FRENCH I	Full Year	Grades 9-12	5 Credits
	In this course, students will have the opportunity to explore France, the French language, and the French culture through a variety of student-centered activities. They will work on their listening, speaking, reading, and writing skills. Interpersonal, interpretive, and presentational skills will be developed. Students will communicate frequently with partners or groups in French and they will utilize technology and music to assist in their linguistic acquisition. Students will learn how to ask and answer questions about likes and dislikes, hobbies, and sports. Additionally, students will learn about school life in France and how it compares to American school life. Students will be able to order food in French restaurants, shop for clothing in French stores, and describe their families and friends. At the end of each thematic unit, the students will participate in a performance assessment. Throughout the year, students will participate in French celebrations.			
5120	FRENCH II	Full Year	Grades 10-12	5 Credits
	Prerequisite: French I			
	Students continue to develop communication skills in French. Through partner and group activities, songs, dances and games, students will learn to speak French. Students will study Paris and learn about the famous monuments and Parisian attractions. They will learn house and hotel vocabulary needed for any international travel. Each student will create a children's book to talk about their daily routines. They also will have the opportunity to use digital media to record conversations, create PowerPoints and movies to bring the French language to life.			
5130	FRENCH III	Full Year	Grades 11-12	5 Credits
	Prerequisites: French II with an 83 or better and teacher recommendation			
	This course focuses on the use of language for active communication during in-class conversations, question and answer sessions, and paired activities. Students will learn about foods and create a home cooking video. They also will learn about health and fitness and participate in a French work-out. Students will learn about traveling by plane, train, and subway and will be able to navigate easily through a city. While doing this, they will compare New York City to Paris to learn about their similarities and differences. Students enrolled in this course may be eligible to earn college credits through our dual credit partnership with Stockton University.			
5140	HONORS FRENCH IV	Full Year	Grade 12	5 Credits
	Prerequisites: French III with an 85 or better and teacher recommendation			
	This course continues to foster more advanced communication as students experience the French language and culture in greater depth. PowerPoint presentations and YouTube videos enable students to experience the language and culture first-hand. Students will narrate stories using picture prompts and keep a journal of everyday activities. The African culture will be explored while reading a book about an African exchange student. Each student will make an African dish to serve at our traditional and culturally authentic African meal. Students will also study Martinique and explore this country's tourist attractions. The use of digital media will enhance students' knowledge and understanding in addition to enhancing their skills. They will record conversations and create PowerPoints and movies to bring the French language to life. Students enrolled in this course may be eligible to earn college credits through our dual credit partnership with Stockton University.			

5210	GERMAN I Do you want to prepare for living and working in a global society? Then this class is for you. Classroom instruction is designed to encourage communication and comprehension in German through authentic role play and fun, interactive, computer-based projects. Students will be emerged in German in a contemporary cultural context celebrating Oktoberfest, Nikolaustag, and German food tasting.	Full Year	Grades 9-12	5 Credits
5220	GERMAN II Prerequisite: German I In German II students will build on the German language skills acquired in German I. Using a multitude of instructional and technological skills, they will prepare and present with their classmates an authentic German cooking show, a video that gives directions to SRHS to a German exchange student, and develop their critical thinking skills, appreciation, and understanding of current trends and culture through watching and listening to popular German movies and music.	Full Year	Grades 10-12	5 Credits
5230	GERMAN III Prerequisites: German II with an 83 or better and teacher recommendation In German III students will use the language, writing, teaching, and technology skills acquired in levels I and II in new and exciting ways. For instance, they will prepare and present with their classmates a German fairy tale, record and edit a mock video of a routine doctor visit and fill out an application to a German university. Plus, students will continue to develop critical thinking skills by studying and analyzing the German culture and political system. Students enrolled in this course may be eligible to earn college credits through our dual credit partnership with Stockton University.	Full Year	Grades 11-12	5 Credits
5240	HONORS GERMAN IV Prerequisites: German III with an 85 or better and teacher recommendation Success in a global economy and community goes hand-in-hand with communicating in a foreign language. Germany is an economic powerhouse, recognized and respected in the international business world. It is also a world leader in architecture, engineering, finance, and the medical and biological sciences. This academic elective course is designed to continue to prepare students for living and working in a global society, while building on the skills acquired in previous German levels. Classroom instruction is designed to not only encourage communication and comprehension in German, but also to gain an understanding and appreciation of Germany's economic success. Classroom instruction includes working with thematic, organized units in collaboration with educational and interactive, computer-based projects. Students will immerse themselves in German in a contemporary cultural context and discover Germany's famous cities, universities, famous people, etc. Students enrolled in this course may be eligible to earn college credits through our dual credit partnership with Stockton University.	Full Year	Grade 12	5 Credits
5310	JAPANESE I This course introduces both the Japanese language and culture. Students will learn to read and write the hiragana and katakana scripts, as well as 50 kanji (Chinese characters). Useful expressions and basic sentence structures will be practiced, with stress placed on proper pronunciation and practical interaction. Traditional and current Japanese culture will be examined through various means, such as reading (in English) and other video experiences and virtual field trips. The course will also look at mutual Japanese and American stereotypes, and how they may impact effective communication.	Full Year	Grades 9-12	5 Credits
5320	JAPANESE II Prerequisite: Japanese I In the second year of the sequence, students will practice grammatical structures and vocabulary in both the written and spoken language. An additional 60 kanji will be learned, with further practice in reading and writing hiragana and katakana. Further insights into Japanese culture will be gained through similar means as in Japanese I.	Full Year	Grades 10-12	5 Credits

5330	JAPANESE III Prerequisites: Japanese II with an 83 or better and teacher recommendation At this level students will be able to access a variety of selected original documents, such as haiku, manga, advertisements, and manuals, for translation of both artistic and practical materials. A further 60 kanji will be studied, as will more advanced sentence structures. Students will continue to study various aspects East Asian cultures and they will gain a better understanding of East Asian thought and values. This course may be combined with other levels because of enrollment.	Full Year	Grades 11-12	5 Credits
5340	HONORS JAPANESE IV Prerequisites: Japanese III with an 85 or better and teacher recommendation Students will be able to write short letters and postcards to students at our sister school in Japan. Readings of greater length and sophistication will also be possible. Socially appreciated use of the spoken language will continue to be stressed, using both plain and honorific forms. This course may be combined with other levels because of enrollment. The expectations and workload in an honors course are high. This accelerated course will require that a significant amount of work be accomplished outside the confines of the class period.	Full Year	Grade 12	5 Credits
5410	LATIN I Who says Latin is a dead language? Only a barbarian, that's who! Over 60% of the English language comes from Latin, and many Latin words and phrases are still used in the legal and medical professions. Learning Latin increases your English vocabulary, helping you to perform better on the SAT. Spoken by the Romans for over a thousand years, Latin opens the door to learning about their fascinating culture which continues to impact our lives today. In Latin I, you will develop a basic literacy level in Latin while learning about the Romans and increasing your knowledge of English.	Full Year	Grades 9-12	5 Credits
5420	LATIN II Prerequisite: Latin I In this course, students will expand their skills as readers and appreciators of Latin. Primary texts from Roman authors are increasingly interwoven into the <i>Ecce Rōmānī</i> stories about the Corneliī family which help open the door into the world of the Romans. Students will learn how to read increasingly complex Latin sentences. Students will also learn about the expansion of the Roman Empire throughout the Mediterranean world.	Full Year	Grades 10-12	5 Credits
5430	LATIN III Prerequisites: Latin II with an 83 or better and teacher recommendation Moving onward and upward, we increase the frequency of our primary texts until, by the 4 th marking period, we are reading exclusively authentic Latin. Special attention is given to the work of the 4 th century A.D. historian Eutropius Principate. Here students begin to be introduced to the literary devices and techniques that abound in the literature of the classics. As many of these devices and techniques are still used in modern languages, additional skill is acquired in reading and comprehension in literary criticism. Students enrolled in this course may be eligible to earn college credits through our dual credit partnership with Stockton University.	Full Year	Grades 11-12	5 Credits
5440	HONORS LATIN IV Prerequisites: Latin III with an 85 or better and teacher recommendation The capstone course of the Latin curriculum, this year is split into two sections. The first semester focuses squarely on various authors of Latin prose and poetry, including, but not limited to: Cicero, Caesar, Catullus, Ovid, Horace, and Augustus. The second semester is an in-depth study of the crowning masterpiece of Latin literature: Vergil's <i>Aeneid</i> . In addition to reading passages from the <i>Aeneid</i> in Latin, students will also read the entirety of the poem in English verse translation. Special attention will be given to the historical and cultural circumstances of the author and his era, and the impact of this literature on later authors and, indeed, civilizations. Students enrolled in this course may be eligible to earn college credits through our dual credit partnership with Stockton University.	Full Year	Grade 12	5 Credits

5500	SPANISH FOR COMMUNICATION	Full Year	Grades 9-10	5 Credits
	The focus of this course is for students to acquire novice language skills for active interpersonal communication. Students will learn about various cultural topics and begin to compare their world to that of other world language cultures thus gaining insight into the global community. Thematic units, stories, and projects integrating technology will present students with vocabulary and language needed to begin basic communication with non-English speakers. Spanish for Communication is for those students who do not wish to pursue further language study. This course satisfies the 5 credit New Jersey world language high school graduation requirement.			
5510	SPANISH I	Full Year	Grades 9-12	5 Credits
	Spanish I is an introductory course designed to give the student a broad understanding of the Spanish language and Hispanic culture. Vocabulary and language structures will be emphasized using the three modes of communication (interpretive, interpersonal, and presentational). To develop proficiency in both comprehending and communicating in the language, the class will be conducted mostly in Spanish. All students are required to maintain a language notebook and to be active speakers of Spanish as they participate individually, in pairs, and while working in cooperative learning groups. Upon completion of this course, a student should have acquired enough language to function at a novice mid-level of proficiency.			
5520	SPANISH II	Full Year	Grades 9-12	5 Credits
	Prerequisite: Spanish I During the second year of the program, students continue to develop and enhance their communication skills through the study of themes in Spanish and Hispanic cultures. Students acquire additional vocabulary and language structures so that they can orally communicate and participate in classroom activities. A greater emphasis is placed on reading and writing. Both teachers and students will be using Spanish to communicate and actively participate in the class. Upon completion of this course a student should have acquired enough language to function at a novice high-level of proficiency.			
5530	SPANISH III	Full Year	Grades 10-12	5 Credits
	Prerequisites: Spanish II with an 83 or better and teacher recommendation Level III students continue to develop and refine their communication skills. Finer grammatical points and idiomatic expressions of the language are infused into the course of study. Through compositions and readings, students further their understanding of contemporary Hispanic life and culture. An increased emphasis on compositional writing is included. Both teachers and students will be using Spanish to communicate and actively participate in the class. Upon completion of this course a student should have acquired enough language to function at a novice high-level of proficiency. Students enrolled in this course may be eligible to earn college credits through our dual credit partnership with Stockton University.			
5540	HONORS SPANISH IV	Full Year	Grades 11-12	5 Credits
	Prerequisites: Spanish III with an 85 or better and teacher recommendation The refinement of communication skills remains the emphasis in level IV. Students learn of the contributions of contemporary, as well as historical figures, from the Spanish-speaking world in the fields of art, literature, music, science, math, economics, trade, and politics. They are expected to relate current economic, cultural, political, geographical, and environmental aspects of Spanish-speaking countries to their current studies in social studies, English and other areas of the curriculum. Students are required to assemble a portfolio with their work from throughout the year, which shows their proficiency in Spanish and their understanding of the Spanish culture both at home and abroad. The expectations and workload in an honors course are high. This accelerated course will require that a significant amount of work be accomplished outside the confines of the class period. Students enrolled in this course may be eligible to earn college credits through our dual credit partnership with Stockton University.			

5550	AP SPANISH LANGUAGE Prerequisites: Honors Spanish IV with an 85 average and teacher recommendation This rigorous course is designed for students who wish to further refine all communicative skills. Students will learn more difficult vocabulary and grammatical constructions, which enable them to understand Spanish in various contexts, read and interpret literary texts, and express themselves in a more sophisticated spoken and written form. The expectations and workload in an AP course are high. This accelerated course will require that a significant amount of work be accomplished outside the confines of the class period. Students enrolled in this course have the opportunity to prepare for the Advanced Placement Exam and potentially earn college credit. Students enrolled in this AP course will be required to take the AP exam administered in May (exam fees will be paid by the district).	Full Year	Grade 12	5 Credits
5570	HERITAGE SPANISH This course is designed for students already fluent in Spanish. The goal is to improve communication through the development of academic language skills. Identity and cultural heritage topics will be explored through the study of authentic literary selections. Improving oral and literacy skills in Spanish will also serve to enhance literacy development in English.	Full Year	Grades 9-12	5 Credits
5580	HERITAGE SPANISH II Prerequisite: Heritage Spanish I This course is designed to improve communication through the development of academic language skills. Speaking, reading, listening, and writing skills are taught in greater depth and breadth with connections to the English curriculum goals. Identity and cultural heritage topics will be explored through the study of authentic literary selections. Students will connect their learning to the community, their heritage, and explore the relationship between language, community, and future careers. Students will interact and communicate with others while gaining an understanding of and respect for the cultural perspectives, practices, and products of different cultures. Upon successful completion of this two-year course sequence, students may continue their studies in Spanish IV or AP Spanish, with teacher recommendation. In some cases, the teacher may recommend Spanish III.	Full Year	Grades 10-12	5 Credits
